Volume 14

ESIEX — electrical swing ion exchange: pH control for biomolecule purifications or separations W. Lu, G. Grevillot and L. Muhr (Nancy, France).....	1
Gas permeability: A simple and efficient method for testing membrane material/solvent compatibility for membrane contactors applications P.T. Nguyen, D. Roizard, D. Thomas and E. Favre (Nancy, France)	7
The influence of percentage share of municipal landfill leachates in a mixture with synthetic wastewater on the effectiveness of a treatment process with use of a membrane bioreactor E. Puszczalo, J. Bohdziewicz and A. Świerczyńska (Gliwice, Poland)	15
Characteristics of ion exchange and filtration processes in the zeolite-enhanced membrane microfiltration J. Kinčl, J. Cakl (Pardubice, Czech Republic), R. Wakeman (Loughborough, UK), H. Jiráňková and P. Doleček (Pardubice, Czech Republic)	21
Short-range forecast of permeate flux in detergent wastewater ultrafiltration M. Kabsch-Korbutowicz and M. Kutylowska (Wroclaw, Poland).....	30
Application of supported ionic liquid membranes using a flat sheet and hollow fibers to lactic acid recovery M. Matsumoto, W. Hasegawa, K. Kondo (Kyoto), T. Shimamura and M. Tsuji (Aichi, Japan).....	37
Coupling effect during vapour permeation of organic mixtures through polymeric membranes K. Friess, M. Kuboňová-Hendrichová, O. Vopička, V. Hynek, M. Zgazar and M. Šípek (Prague, Czech Republic).....	47
Mine waters in the Czech Republic — Current situation and trend development V. Slivka, J. Vidlář and J. Thomas (Ostrava-Poruba, Czech Republic).....	52
The pressure membrane techniques as BAT in dairy industry E. Polom (Szczecin, Poland)	61
Investigations of rubbery copolyimides for the preparation of asymmetric pervaporation membranes A. El-Gendi, D. Roizard, J. Grignard and E. Favre (Nancy, France)	67
How ionic liquid changes properties of dense polydimethylsiloxane membrane? M. Kohoutová, A. Sikora, Š. Hovorka, A. Randová, J. Schauer, M. Poloncarzová and P. Izák (Prague, Czech Republic)	78
Polymer membranes modified by fullerene C ₆₀ for pervaporation of organic mixtures G.A. Polotskaya, A.V. Penkova (Saint-Petersburg, Russia), Z. Pientka (Prague, Czech Republic) and A.M. Toikka (Saint-Petersburg, Russia)	83
Continuous recycle membrane reactor for enzymatic hydrolysis of dual modified potato starch J. Sulej-Chojnacka, E. Konował and K. Prochaska (Poznan, Poland).....	89
The influence of types of dual modified starches on the enzymatic hydrolysis in the continuous recycle membrane reactor E. Konował, J. Sulej-Chojnacka and K. Prochaska (Poznan, Poland).....	94
Preparation of gas diffusion electrodes for high temperature PEM-type fuel cells P. Mazur, J. Malis, M. Paidar, J. Schauer and K. Bouzek (Prague, Czech Republic)	101
Behavior of Nafion membrane at elevated temperature and pressure M. Paidar, J. Mališ, K. Bouzek and J. Žitka (Prague, Czech Republic).....	106
Application of membranes in biogas production E. Szentgyörgyi, N. Nemestóthy and K. Bélafi-Bakó (Veszprém, Hungary)	112
Biohydrogen production in integrated system K. Bélafi-Bakó, P. Bakonyi, N. Nemestóthy (Veszprém, Hungary) and Z. Pientka (Prague, Czech Republic).....	116
Integrated membrane/PSA systems for hydrogen recovery from gas mixtures O.L. Amosova, O.V. Malykh and V.V. Teplyakov (Moscow, Russia).....	119
Dow™ EDI modules perform well at bioenergy combines in Scandinavia M. López García and M. Lehtinen (Midland, MI, USA)	127

Development and comparison of non-parameter regression methods for prediction of cell voltage and current efficiency in a lab scale chlor-alkali membrane cell N. Shojaikaveh and S.N. Ashrafizadeh (Tehran, Iran)	135
Theoretical studies on carbon dioxide removal from a gas stream in hollow fiber membrane contactors N. Boucif (Nancy, France and Mascara, Algeria), P.T. Nguyen, D. Roizard and E. Favre (Nancy, France).....	146
Pervaporation membranes based on composites of polyimide with polyaniline or its copolymer A.Yu. Pulyalina, G.A. Polotskaya, I.G. Suschenko, T.K. Meleshko, L.M. Kalyuzhnaya and A.M. Toikka (Saint-Petersburg, Russia)	158
Comparison of transport properties of hyperbranched and linear polyimides K. Friess, P. Sysel, E. Minko, M. Hauf, O. Vopička, V. Hynek, K. Pilnáček and M. Šípek (Prague, Czech Republic).....	165
Demineralization of natural sweet whey by electrodialysis at pilot-plant scale H. Šimová, V. Kysela and A. Černín (Stráž pod Ralskem, Czech Republic)	170
Mathematical model of mass transfer in an electro dialyzer with net-like spacers D. Tvrzník, L. Machuča and A. Černín (Stráž pod Ralskem, Czech Republic)	174
The effect of an organic ion-exchange resin on properties of heterogeneous ion-exchange membranes J. Křivčík, J. Vladařová, J. Hadrava, A. Černín (Stráž pod Ralskem) and L. Brožová (Prague, Czech Republic)..	179
Modeling of the kinetics of pervaporative recovery of ethanol from fermented broth with the use of the solution–diffusion theory M. Staniszewski (Olsztyn) and W. Kujawski (Toruń, Poland)	185
Gas permeability properties of modified membranes based on exfoliated graphite A.E. Rogacheva, A.P. Kharitonov (Moscow), A.S. Vinogradov (Saint Petersburg) and V.V. Teplyakov (Moscow, Russia)	192
Recovery and concentration of basic amino acids by electrodialysis with bipolar membranes T.V. Eliseeva, E.V. Krisilova, V.A. Shaposhnik and A.E. Bukhovets (Voronezh, Russia).....	196
Numerical study of the effect of a charged membrane in the separation of electrically charged components S.I.S. Pinto, J.M. Miranda and J.B.L.M. Campos (Porto, Portugal)	201
Electrodialysis in whey desalting process L. Diblíková, L. Čurda and K. Homolová (Prague, Czech Republic)	208
The oscillation of concentration field at the membrane–solution interface and transport mechanisms under overlimiting current density V. Vasil'eva (Voronezh), V. Zabolotsky (Krasnodar), V. Shaposhnik, A. Zhiltsova and O. Grigorchuk (Voronezh, Russia)	214
The effect of the concentration polarization and the membrane layer mass transport on membrane separation E. Nagy and E. Kulcsár (Veszprém, Hungary).....	220
The hydrodynamic effect of microparticles on membrane resistance A. Szép, Sz. Kertész, Zs. László and C. Hodúr (Szeged, Hungary)	227
Nanofiltration and reverse osmosis of pig manure: Comparison of results from vibratory and classical modules Sz. Kertész, S. Beszédes, Zs. László, G. Szabó and C. Hodúr (Szeged, Hungary)	233
Comparison between stirred and vibrated UF modules Sz. Kertész, A. Szép, J. Csanádi, G. Szabó and C. Hodúr (Szeged, Hungary)	239
New generation of nanocomposite materials based on perfluorinated membranes and polyaniline: Intercalation phenomena, morphology and transport properties N. Berezina, I. Falina, A. Sytcheva, S. Shkirskaia (Krasnodar) and S. Timofeyev (Saint Petersburg, Russia)	246
Membrane-assisted separation of microbial gaseous fuels from renewable sources A. Netrusov, S. Abramov, E. Sadraddinova, A. Shestakov, M. Shalygin and V. Teplyakov (Moscow, Russia).....	252
Desalination in Algeria: Current situation and development programs R. Mitiche (Algiers), M. Metaiche (Algiers and Béchar), A. Kettab (Algiers), F. Ammour (Blida), S. Otmani (Algiers), S. Houli (Blida), S. Taleb (Bel-Abbes) and A. Maazouzi (Algiers and Blida, Algeria).....	259
Performance evaluation of reverse osmosis desalination plant: A case study of Wadi Ma'in, Zara and Mujib Plant M.S. Mohsen (Zarqa) and S. Gammoh (Amman, Jordan)	265
Erratum to Treatment of combined bleaching effluent by membrane filtration technology for system closure in paper industry [Desalination and Water Treatment, Volume 13 (2009) 464–470] S.K. Shukla, V. Kumar and M.C. Bansal (Saharanpur, India).....	273
Author Index.....	274
