

**Contents**

**Volume 295**

|  |     |
|--|-----|
| Conducting distribution system corrosivity evaluations using an innovative jar test procedure<br>P. Campesino-Karlins, S. Duranceau (USA) .....  | 1   |
| Preparation of high alkalinity polymer ferric sulfate flocculant<br>by new bipolar membrane electrodialysis reactor<br>Dong Wang, Xiaoyi Li, Yuting Wu, Shaoxiang Li, Yuqi Zheng, Dan Chen, Nan Zhang,<br>Yueyuan Zhu, Congjie Gao (China) .....                                   | 18  |
| Emulsion liquid membrane for removal of pesticides from aqueous solution:<br>emulsion stability and effect of operational parameters<br>A.A. Mohammed, F.E. Al-Damluji (Iraq) .....  | 30  |
| Modification of surface characteristics of functionalized multi-walled carbon nanotubes<br>containing mixed matrix membrane using click chemistry<br>P. Mistry, K. Nikita, V.K. Aswal, S. Kumar, C.N. Murthy (India) .....   | 42  |
| Study on the relationship between urbanization and sustainable utilization of water resources<br>in Xiamen, Zhangzhou, and Quanzhou<br>Jiping Wang, Yaling Han, Qiongqiong Wang (China) .....  | 52  |
| Outstanding adsorption characteristics of an aminophosphonic acid chelating fiber<br>for calcium and magnesium ions<br>Da-Xin Liu, Gang Xu, Zhao-Wen Chen, Guo-Qing Huang, Ming-Hong Wu (China) .....  | 64  |
| Preparation methods of an MoS <sub>2</sub> /GO photocatalyst for the oxidation of ammonia nitrogen<br>in photoelectric microbial cells<br>Jing Ren, Jiyue Zhang, Yao Li, Maohua Du, Na Li, Chunxu Hao, Rui Hu (China) .....  | 73  |
| Numerical simulation and experimental optimization of ultrasonic cracking in excess sludge<br>Nan Zhang, Ying Qin, Yun Wan, Wei Wei, Shuguang Zhu, Kefeng Lu, Zhiwei Wang (China) .....  | 83  |
| Heterogeneous catalytic ozonation by amorphous copper silicate<br>for degradation of p-chloronitrobenzene in water<br>Congmin Wang, Yue Liu, Quan Zhao, Rong Guo, Yanyan Dou, Caixia Zhu (China) .....   | 95  |
| Multivariable event-triggered predictive control based on recursive bilinear subspace identification<br>for wastewater treatment processes<br>Hongbiao Zhou, Shuaixiang Liu, Jian Ren, Jinlong Zhang, Honghai Li (China) .....   | 105 |
| Ex-situ treatment of black and odorous sediments using chemical oxidation<br>Cong Huang, Qiang Lin, Shaokang Peng, Zheng Xu, Min Zhang, Dingli Chen, Haoming Sun,<br>Jizhao Chen, Lei Miao, Zongping Wang (China) .....  | 125 |
| Removal of boron from aqueous solution through adsorption process<br>using cationic surfactant (CTAB)-modified kaolin clay<br>A.Y. Al Haj Ahmed, H. Al Najjar, N. Abu Ghalwa (Palestinian Authority) .....   | 133 |
| Combination of chemical methods for obtaining ZnO films for application and reuse in photocatalysis:<br>polymeric precursor and microwave-assisted hydrothermal methods<br>G. de Souza, J.O.D. Malafatti, J.A. Dias, E.C. Paris, R.F. Klein-Gunnewiek, T.R. Giraldo (Brazil) ..... | 142 |
| Bioceramic hydroxyapatite derived from waste bone for copper bioadsorption application<br>using process optimization: solution for sustainability<br>M. Mekki, K. Zlaoui Riahi, K. Horchani-Naifer, D. Jellouli Ennigrou (Tunisia) .....   | 150 |
| Enhanced removal of Cr(VI) of effectiveness and mechanism from wastewater<br>using modified distiller grains-based biochar<br>Hengjun Tang, Biao Qiu, Jian Tang, Yi Liao, Guo Liu, Suyi Zhang, Zonghua Ao, Kai Shang (China) .....   | 166 |
| Removal of phosphate from solution using lanthanum-modified wheat straw<br>Yuanyuan Wang, Xu Liu, Yuwei Song, Runping Han (China) .....  | 177 |
| Simulation and optimization of supercritical water oxidation processes<br>Guodong Yu, DeDong Hu (China) .....  | 191 |

|  |     |
|--|-----|
| Enhanced biosorption of hexavalent chromium ions from aqueous solution onto <i>Ziziphus jujube</i> seeds as ecofriendly biosorbent – equilibrium and kinetic studies<br>T. Hariharan, R. Gokulan (India), N. Al-Zaqri (Saudi Arabia),<br>I. Warad (Palestinian Authority, UK) .....  | 205 |
| Multi-response optimization of ultrasound-assisted competitive adsorption of dyes onto $\gamma$ -Fe <sub>2</sub> O <sub>3</sub> nanoparticles loaded on activated carbon: central composite design<br>M. Kiani, N. Karachi, S. Bagheri, V. Bagheri (Iran) .....  | 217 |
| High adsorptive removal of cationic dye using carboxylated and mechanically attrited activated carbon<br>H.K. Mahilary, A.K. Dey (India) .....   | 227 |
| Modified Tunisian diatomite for the removal of dyes: kinetic and thermodynamic studies<br>H. Nefzi, N. Tahari (Tunisia, Spain), O. Bachrouch, M. Abderrabbaa (Tunisia), J. Labidi (Spain) .....  | 245 |
| Corrigendum to "Photocatalytic removal of the erythromycin antibiotic using Fe-doped TiO <sub>2</sub> @Fe <sub>3</sub> O <sub>4</sub> magnetic nanoparticles: Investigation of effective parameters, process kinetics and degradation end products" published in vol. 262, June 2022, pp.323–337 (doi:10.5004/dwt.2022.28542)<br>H. Pishrafti, H. Kamani, N. Mansouri, A.H. Hassani, H. Ahmadpanahi (Iran) ..... | 255 |
| Statement of retraction – "Thermal analysis of water distillation system using PV/T collector combined single basin still" published in vol. 282, January 2023, pp. 53–69 (doi: 10.5004/dwt.2023.29181)<br>Viet Van Hoang, Bao The Nguyen, Huy Dang Ho (Vietnam) .....   | 256 |
| Author Index .....   | 257 |
