

***Selected papers presented at the conference Challenges in Environmental Science and Engineering – CESE-2011, 25–30 September 2011, Ever Green Plaza Hotel, Tainan City, Taiwan***

Editorial: Conventional and advanced technologies in treating water, wastewater and groundwater Ho Kyong Shon (Sydney, Australia), L.D. Nghiem (Wollongong, Australia), Suhan Kim (Busan, Korea), Li Shu and J.V. Jegatheesan (Melbourne, Australia) .....	1
Research on absorption of ammonia by nitric acid-modified bamboo charcoal at low temperature Chun-Ying Li, Wei-Guang Li and Li Wei (Harbin, China) .....	3
Control of assimilable organic carbon (AOC) concentrations in a water distribution system Jia-Yun Han, Hsu Kai-Lin, Lin Chung-Yi, Jie-Chung Lou and Ming-Ching Wu (Kaohsiung, Taiwan) .....	11
The effect of fluctuation in flow rate on the performance of conventional and membrane water treatment for a smart water grid No-Suk Park, Seong-Su Kim, Seon-Ha Chae (Daejeon) and Suhan Kim (Busan, Korea) .....	17
UASB-A/O-BAF treatment of high strength wastewater: a case study for soybean protein wastewater Zhou Li, Baoyu Gao and Qinyan Yue (Shandong, China) .....	24
Adsorption of methylene blue from aqueous solutions onto sintering process red mud Luyi Zhang, Huayong Zhang, Yonglan Tian, Zhongshan Chen (Beijing, China) and Lu Han (Regina, Canada) .....	31
High phosphorus shock loading induced glycogen accumulating organisms in anaerobic/oxic sequencing batch reactor Chih-Hsun Hsu, Wei-Chin Chang, Jian-Jyun Chen and Jhong-Syun Wu (Yunlin, Taiwan) .....	42
Effectiveness of purolite A500PS and A520E ion exchange resins on the removal of nitrate and phosphate from synthetic water T. Nur, M.A.H. Johir, P. Loganathan, S. Vigneswaran and J. Kandasamy (Sydney, Australia) .....	50
Biosorption of Ni(II) from aqueous solutions by <i>Syzygium cumini</i> bark powder: Equilibrium and kinetic studies Sk. Akmal, J. Jaya Malathi, Y. Vijaya (Nellore, India), S.R. Popuri (Saint Michael, Barbados) and M. Venkata Subbaiah (Jeonju, Korea) .....	59
Sustainable management strategies for an urban-type and low dissolved oxygen stream using measured biochemical coefficients Ping-Kuei Tang, Yi-Chu Huang and Ya-Ju Lin (Pingtung, Taiwan) .....	69
Phosphate adsorption on biogenetic calcium carbonate minerals: effect of a crystalline phase Qiang Liu, Lijing Guo, Yingmei Zhou, Yingchun Dai, Linlin Feng, Jizhi Zhou, Jun Zhao, Jianyong Liu and Guangren Qian (Shanghai, China) .....	78
Adsorption of phosphate into waste oyster shell: thermodynamic parameters and reaction kinetics Wan-Ting Chen, Chiao-Wen Lin, Po-Kang Shih and Wen-Lian Chang (Taipei, Taiwan).....	86
Ultrasound-assisted oxidative desulfurization (UAOD) using phosphotungstic acid: effect of process parameters on sulfur removal Meng-Wei Wan (Tainan, Taiwan), L.C.C. Biel (Quezon, Philippines), Ming-Chun Lu (Tainan, Taiwan), R. de Leon and S. Arco (Quezon, Philippines) .....	96
Recovery of palladium(II) from acidic chloride solution using kerosene containing tri-n-octyl/decyl amine (Alamine 336) Chen-Yu Peng and Teh-Hua Tsai (Taipei, Taiwan) .....	105
Major mechanism(s) of chloramine decay in rechloraminated laboratory scale system waters A. Sathasivan and K.C. Bal Krishna (Perth, Australia) .....	112
Recovery of cupric oxide from copper-containing wastewater sludge by acid leaching and ammonia purification process Jun-Yi Wu, Wei-Shan Chou, Wei-Sheng Chen, Fang-Chih Chang, Yun-Hwei Shen, Juu-En Chang (Tainan) and Min-Shing Tsai (Taipei, Taiwan) .....	120

Preparation and characterization of activated carbon from melon ( <i>Citrullus vulgaris</i> ) seed hull by microwave-induced NaOH activation K.Y. Foo and B.H. Hameed (Nibong Tebal, Malaysia) .....	130
Microwave heating-synthesized zeolite membrane for CO <sub>2</sub> /CH <sub>4</sub> separation T.L. Chew (Nibong Tebal and Kampar), A.L. Ahmad and S. Bhatia (Kampar, Malaysia) .....	139
Fouling mitigation in a submerged membrane bioreactor treating dyeing and textile wastewater B.X. Thanh, N.P. Dan and N.T. Binh (Ho Chi Minh City, Vietnam) .....	150
The bromamine acid removal from aqueous solution using electro-Fenton and Fenton systems Mingming Gao, Guohui Zhang, Xinhua Wang (Jinan) and Fenglin Yang (Dalian, China) .....	157
Effects of nitrate on the advanced UV photolysis of di(2-ethylhexyl) phthalate degradation in aqueous solution C.G. Park and J.C. Kim (Seoul, Korea) .....	163
Surface modification of polyethersulfone ultrafiltration (PES-UF) membrane using myoglobin as modifying agent N. Ali and S. Syaima Mat Tari (Kuala Terengganu, Malaysia) .....	171
Performance assessment of water quality monitoring system and identification of pollution source using pattern recognition techniques: a case study of Chaohu Lake, China Yunfeng Xu, Chunzi Ma (Shanghai), Shouliang Huo, Beidou Xi (Beijing) and Guangren Qian (Shanghai, China) .....	182
Micellar enhanced ultrafiltration (MEUF) and activated carbon fibre (ACF) hybrid processes for nickel removal from an aqueous solution Wontae Lee and Seunghwan Lee (Gumi, Korea) .....	198
Removal of cyanobacteria by an <i>Aeromonas</i> sp. Yu-Mei Liu, Meng-Hui Wang (Shandong), Rui-Bao Jia (Jinan) and Li Li (Shandong, China) .....	205
Application of neuro-fuzzy PID controller for effective post-chlorination in water treatment plant Sung-Taek Hong, An-Kyu Lee, Ho-Hyun Lee, No-Suk Park (Daejeon) and Seung-Hwan Lee (Daejeon and Gumi, Korea) .....	211

### Research papers

Treatment of wastewater from shrimp farms using a combination of fish, photosynthetic bacteria, and vegetation Wen Luo (Shaoxing), Xianyu Deng (Xiangtan), Wentao Zeng and Daheng Zheng (Shaoxing, China) .....	221
Photocatalytic degradation of an azo dye Direct Sky Blue 5B in water: a comparative study using nanostructured ITO, ZnO, and ZnO/ITO thin films M. Nasr-Esfahani (Najafabad, Iran) .....	228
Sodium carboxymethyl cellulose as an inhibitor of scale formation in nanofiltration of hard artesian waters V.V. Goncharuk, A.A. Kavitskaya and M.D. Skilskaya (Kiev, Ukraine) .....	235
Treatment of landfill leachate by internal microelectrolysis and sequent Fenton process Hui Zhang, Luoqing Xiang, Daobin Zhang and Hua Qing (Wuhan, China) .....	243
Enhanced removal of organics and phosphorus in a hybrid coagulation/membrane bioreactor (HCMBR) for real textile dyeing wastewater treatment Zai-Sheng Yan, Shi-he Wang, Xiao-kun Kang and Yu Ma (Nanjing, China) .....	249
The characteristics and effect of grain-slag media for the treatment of phosphorus in a biological aerated filter (BAF) Yan Feng, Yanzhen Yu, Liping Qiu, Jiabing Wang (Jinan) and Jianwei Zhang (Jining, China) .....	258
Groundwater aquifer recharge with treated wastewater in Egypt: technical, environmental, economical and regulatory considerations N.E. El Arabi and M.A. Dawoud (Kalubia, Egypt) .....	266
Desalting seawater in Qatar by renewable energy: a feasibility study M. Darwish, R. Mohtar, Y. Elgendy and M. Chmeissani (Doha, Qatar) .....	279
Chemical and biological treatments to clean oily wastewater: optimization of the photocatalytic process using experimental design M. Yeber, E. Paul and C. Soto (Concepción, Chile) .....	295
Comparative study on the adsorption of malathion pesticide by different adsorbents from aqueous solution A.M. Donia, A.A. Atia (Menoufia), R.A. Hussien and R.T. Rashad (Giza, Egypt) .....	300

Dynamic biosorption characteristics and mechanisms of dried activated sludge and <i>Spirulina platensis</i> for the removal of Cu <sup>2+</sup> ions from aqueous solutions G.O. Engin (Kocaeli), B. Muftuoglu (Istanbul) and E. Senturk (Kocaeli, Turkey).....	310
Modification of activated carbon by the alkaline treatment to remove the dyes from wastewater: mechanism, isotherm and kinetic B. Hayati and N.M. Mahmoodi (Tehran, Iran) .....	322
Optimization of nickel removal using liquid–liquid extraction and response surface methodology A. Talebi, T.T. Teng, A.F.M. Alkarkhi, I. Norli and Ling Wei Low (Penang, Malaysia) .....	334
Comparison of a conventional municipal plant, and an MBR plant with and without MPE. A comparison of the environmental and financial performance of a conventional activated sludge (CAS) plant, membrane bio-reactor (MBR), and MBR treated with Nalco Membrane Performance Enhancer (MPE technology, in the treatment of municipal wastewater T. Wozniak (Wannweil, Germany) .....	341
Corrigendum to “Photocatalytic decolorization of methylene blue using immobilized ZnO nanoparticles prepared by solution combustion method” [Desalination and Water Treatment, Vol. 44 (2012) 174–179] A. Rezaee, H. Masoumbeigi, R. Darvishi Cheshmeh Soltani, A.R. Khataee and S. Hashemiyan (Tehran, Iran) .....	353
Author Index.....	354
