

Ultrafiltration of oil/water emulsions using PVDF/PC blend membranes M.A. Masuelli (San Luis, Argentina)	569
Magnesium hydroxide coagulation performance and floc properties in treating kaolin suspension under high pH Jianhai Zhao, Shiyu Liu, Yongzhi Chi and Na Feng (Tianjin, China)	579
Eutrophic lake water treatment using a diatomite porous ceramic membrane Liping Wang (Changzhou), Chuqiao Wang (Changzhou and Nanjing), Yongjing Mao, Erdeng Du and Xia Xu (Changzhou, China)	586
Saline domestic sewage treatment in constructed wetlands: a study of plant selection and treatment characteristics Feng Gao (Changsha and Zhoushan), Zhao-Hui Yang (Changsha), Chen Li and Wei-hong Jin (Zhoushan, China)	593
Pretreatment of saline wastewater with Fe-C alloy filler Guizhong Zhou, Xuan Wang, Jianting Liu, Zhaofeng Wang and Shaoxiang Li (Qingdao, China)	603
Assessment of wastewater treatment alternatives in metropolitan municipality district: a case study in Turkey Ş.T. Azgin and İ. Peker (Kayseri, Turkey)	610
Efficiency of a hybrid granular bed-contact oxidation biofilm baffled reactor for treating molasses wastewater Minmin Liu (Shanghai and Beijing), Ying Zhao, Beidou Xi (Beijing) and Li-an Hou (Shanghai, China)	619
Olive mills wastewater treatment using local natural Jordanian clay M.O.J. Azzam (Irbid), S.I. Al-Gharabli (Amman) and M.S. Al-Harashsheh (Irbid, Jordan).....	627
Flocs of fly ash-silicon-ferric coagulant based on the fractal dimension and research on flocculation Juan Tan, Yanzhen Yu, Yong Sun and Lei Cheng (Jinan, China).....	637
Effectiveness of domestic water filters A. Al-Haddad, H. Al-Qallaf and T. Rashid (Safat, Kuwait)	649
NH ₃ and COD removal from wastewater using biological process: kinetic with optimization studies A. Mohanty, S. Ray, A.K. Yadav and G. Roy Chaudhury (Bhubaneswar, India)	658
Application of modified nano γ -alumina as a solid-phase extraction sorbent combined with high-performance liquid chromatography for determination of phthalate esters in environmental water and soft drink samples M. Ezoddin, T. Taghizadeh, K. Abdi and M.R. Jamali (Tehran, Iran)	671
Electrochemical advanced oxidation of cosmetics waste water using IrO ₂ /Ti modified electrode A.M. Awad and N.A. Abdel Ghany (Cairo, Egypt).....	681
Enhancement of TiO ₂ -UV100 nanoparticles photocatalytic activity by Mg impregnation in the removal of a model organic pollutant M.A. Behnajady and B. Alizade (Tabriz, Iran).....	689
Removal of chloro-organics and color from pulp and paper mill wastewater by polyaluminium chloride as coagulant A.K. Choudhary, S. Kumar and C. Sharma (Saharanpur, India)	697
Study of simultaneous complexation of heavy metals by a mixed heteropolyanion of Dawson type N. Zabat and M. Abbessi (Annaba, Algeria).....	709
Surface modification and characterization of a RS activated carbon: density, yield, XRD, ash and moisture content S.M. Yakout (Riyadh, Saudi Arabia and Cairo, Egypt), A.A.M. Daifullah, S.A. El-Reefy and H.F. Ali (Cairo, Egypt).....	718
Evaluation of different PP grafted sorbent for oil spill cleanup Xiangyu Zhou, Junfu Wei, Shiyong Li, Yuan Chen, Kai Liu and Lei Wang (Tianjin, China).....	727

Solar-driven photocatalytic degradation of phenol in aqueous solution using visible light active carbon-modified (CM)-n-TiO ₂ nanoparticles Y.A. Shaban (Jeddah, Saudi Arabia and Alexandria, Egypt)	737
Surfactant-assisted bioremediation of hexavalent chromium from contaminated water K. Mukherjee, R. Nandi, D. Saha and B. Saha (Burdwan, India).....	746
High-density solvent-based de-emulsification microextraction technique combined with fiber optic-linear array detection spectrometry for fast determination of ppb-level phenol index S.M. Yousefi and F. Shemirani (Tehran, Iran).....	752
The removal of uranium and thorium from their aqueous solutions via glauconite O. Ali, H.H. Osman, S.A. Sayed and M.E.H. Shalabi (Helwan, Egypt)	760
Synthesis, performance, and nonlinear modeling of modified nano-sized magnetite for removal of Cr(VI) from aqueous solutions A.A. Babaei, Z. Baboli, N. Jaafarzadeh, G. Goudarzi, M. Bahrami and M. Ahmadi (Ahvaz, Iran).....	768
Equilibrium kinetics studies on the biosorption of Cu (II) from aqueous solutions by a new adsorbent from a <i>Eupatorium adenophorum</i> Spreng/buckwheat straw mixture Jin-fa Chen and Ping Yang (Chengdu, China).....	778
Adsorption kinetics of the antibiotic ciprofloxacin on bentonite, activated carbon, zeolite and pumice N. Genç and E. Can Dogan (Kocaeli, Turkey)	785
Effect of metal ion (Zn ²⁺ , Bi ³⁺ , Cr ³⁺ , Ni ²⁺)-doped CdS/halloysite nanotubes (HNTs) photocatalyst for the degradation of tetracycline under visible light Weinan Xing, Liang Ni, Xinlin Liu, Yingying Luo, Ziyang Lu, Yongsheng Yan and Pengwei Huo (Zhenjiang, China)	794
Batch adsorption of methylene blue from aqueous solutions by untreated Alfa grass L. Boumehdi Toumi, L. Hamdi, Z. Salem and K. Allia (Algiers, Algeria).....	806
Removal of basic dyes (malachite green) from aqueous medium by adsorption onto amino functionalized graphenes in batch mode Xiaoyao Guo, Qin Wei, Bin Du, Yakun Zhang, Xiaodong Xin, Lianguo Yan and Haiqin Yu (Jinan, China)	818
Kinetics, thermodynamics and isotherm studies for the adsorption of BR2 dye onto avocado integument F. Marahel (Omidiyeh, Iran), M.A. Khan (Riyadh, Saudi Arabia), E. Marahel, I. Bayesti and S. Hosseini (Omidiyeh, Iran and Serdang, Malaysia).....	826
Degradation of Congo red induced by air-bubbles in the presence of nanometer TiO ₂ powders Shuguang Li, Lei Zhang, Jun Wang, Baixin Wang, Yun Li and Chunhong Ma (Shenyang, China)	836
Congo red removal using oxidized multiwalled carbon nanotubes: kinetic and isotherm study M. Sheibani (Omidiyeh), M. Ghaedi (Yasouj), F. Marahel and A. Ansari (Omidiyeh, Iran).....	844
Author Index	853
