

Evaluation of the first seven years operating data of a RO brackish water desalination plant in Las Palmas, Canary Islands, Spain A. Ruiz-García, E. Ruiz-Saavedra and S.O. Pérez Báez (Las Palmas, Spain)	3193
Fouling mechanisms and primary foulant constituents in reverse osmosis membrane reclamation of a petrochemical secondary effluent Haigang Li, Ping Yu and Yunbai Luo (Wuhan, China)	3200
Economic analysis of a stand-alone reverse osmosis desalination unit powered by photovoltaic for possible application in the north west coast of Egypt D.E. Abo Zaid (Cairo, Egypt)	3211
Characteristic and performance of polyvinylidene fluoride membranes blended with different additives in direct contact membrane distillation K.C. Chong, S.O. Lai, K.M. Lee (Kuala Lumpur), W.J. Lau, A.F. Ismail (Skudai) and B.S. Ooi (Nibong Tebal, Malaysia)	3218
Features of multi-effect evaporation desalination plants I.S. Al-Mutaz (Riyadh, Saudi Arabia)	3227
Review of the productivity of various types of solar stills P. Malaiyappan and N. Elumalai (Chennai, India)	3236
Polypyrrole/polyaniline composites with enhanced performance for capacitive deionization Yue Wang, Ruguo Wang, Shichang Xu, Qian Liu and Jixiao Wang (Tianjin, China)	3248
Preparation and characterization of PES-ZnO mixed matrix membranes for humic acid removal A.L. Ahmad (Nibong Tebal, Malaysia), A.A. Abdulkarim (Nibong Tebal, Malaysia and Baghdad, Iraq), S. Ismail and B.S. Ooi (Nibong Tebal, Malaysia)	3257
Anaerobic co-digestion of chemical- and ozone-pretreated sludge in hybrid upflow anaerobic sludge blanket reactor J. Rajesh Banu (Tirunelveli, India), P. Arulazhagan (Jeddah, Saudi Arabia), S. Adish Kumar (Tirunelveli, India), S. Kaliappan (Madurai, India) and A. Menon Lakshmi (Tirunelveli, India)	3269
Photocatalytic degradation of poultry wastewater using activated carbon-supported titanium dioxide R.C. Asha and M. Kumar (Calicut, India)	3279
Preparation of polypyrrole-TiO ₂ and its adsorption and photocatalytic degradation of salicylic acid Huiqin Wang, Xiaolin Liu, Xinlin Liu, Pengwei Huo and Qingfeng Guan (Zhenjiang, China)	3291
Application of response surface methodology for optimization of operational variables in photodegradation of phenazopyridine drug using TiO ₂ /CeO ₂ hybrid nanoparticles H. Eskandarloo, A. Badii (Tehran) and M.A. Behnajady (Tabriz, Iran)	3300
Experimental study of catalytic effect of different forms of zinc on ferrous iron oxidation in a bubble column reactor using ionic, oxide, and oxide nanopowder of zinc M. Moradi Shahre Babak (Kerman and Tehran), A. Soltani Goharrizi and M. Mirzaei (Kerman, Iran)	3311
Effect of pH, OLR, and HRT on performance of acidogenic and methanogenic reactors for treatment of biodiesel wastewater P. Boonsawang, A. Rerngnarong, C. Tongurai and S. Chaiprapat (Songkla, Thailand)	3317
Microalgae removal from Ghrib Dam (Ain Defla, Algeria) water by electroflotation using stainless steel electrodes D. Ghernaout, C. Benblidia and F. Khemici (Blida, Algeria)	3328
Optimization of electrocoagulation of pistachio processing wastewaters using the response surface methodology D. Güçlü (Konya, Turkey)	3338
Kinetics, thermodynamics, and isotherms studies of Cd(II) adsorption onto grape stalk M. Erdem (Elazığ), H. Duran (Ağrı), M. Şahin and I. Ozdemir (Elazığ, Turkey)	3348

Removal of Cr(VI) from aqueous solution on seeds of <i>Artimisia absinthium</i> (novel plant material) R.A.K. Rao, S. Ikram (Aligarh, India) and M. Kashif Uddin (Al-Majmaah, Saudi Arabia)	3358
Biosorption of Zn(II) by <i>Pseudomonas aeruginosa</i> isolated from a site contaminated with petroleum S. Ahmady-Asbchin (Babolsar), M. Safari and R. Tabaraki (Ilam, Iran)	3372
Bimetallic oxide-coated sand filter for simultaneous removal of bacteria, Fe(II), and Mn(II) in small- and pilot-scale column experiments Seong-Jik Park (Anseong), Chang-Gu Lee, Jae-Hyun Kim, Song-Bae Kim, Yoon-Young Chang and Jae-Kyu Yang (Seoul, Korea)	3380
Adsorption of Ni(II) from aqueous solution by activated carbons derived from tobacco stem C. Narasimha Rao, K. Subbarayudu (Tirupati, India), Y. Vijaya (Nellore, India) and M. Venkata Subbaiah (Daegu, Korea)	3392
The adsorption of nitrate from aqueous solution onto calcined Mg/Fe hydrotalcite Zhiquan Yang, Lixiang Zhang, Pan Xu, Xiaoping Zhang, Xiaojun Niu and Shaoqi Zhou (Guangzhou, China)	3400
Ammonia removal using 1.7 MHz high frequency ultrasound in batch and novel dam-weir falling systems M. Faryadi, M. Rahimi, N. Moradi and S. Safari (Kermanshah, Iran)	3412
Optimization and kinetics of nutrient removal from wastewater by chemical precipitation of struvite Nyuk-Min Chong and Quang-Minh Thai (Changhua, Taiwan)	3422
Defluorination from aqueous solution by Ti(IV)-modified granular activated carbon Dingding Tang, Yuwei Zhao, Yixin Wang, Yijia Yang, Dongyang Li, Tianwei Peng and Xuhui Mao (Wuhan, China)	3432
Enhancement of Saharan groundwater quality by reducing its fluoride concentration using different materials A. Ramdani, S. Taleb, A. Benghalem (Sidi Bel-Abbès, Algeria), A. Deratani (Montpellier, France) and N. Ghaffour (Jeddah, Saudi Arabia)	3444
Comparing treatment methods that remove color from the effluent of an Organized Industrial District (OID) M. Yalili Kiliç, T. Yonar, S. Teker and K. Kestioğlu (Bursa, Turkey)	3454
Removal of acid 4092 dye from aqueous solution by zinc oxide nanoparticles and ultraviolet irradiation M.H. Dehghani and P. Mahdavi (Tehran, Iran)	3464
Kinetics studies of catalytic ozonation of distillery effluent P. Asaithambi (Tiruchirappalli), R. Saravanathamizhan (Chennai) and M. Matheswaran (Tiruchirappalli, India)	3470
Author Index	3477
