

*Selected papers presented at the conference*  
**Challenges in Environmental Science and Engineering – CESE-2013**  
**29 October – 2 November 2013, EXCO, Daegu, Korea**

Editorial – Challenges in Environmental Science and Engineering - CESE-2013 29 October – 2 November 2013, EXCO, Daegu, Korea Ho Kyong Shon, Long Duc Nghiem, Suhan Kim, C. Chiemchaisri, Wontae Lee, Dooil Kim, Li Shu and V. Jegatheesan (Australia) .....	815
Influence of the process parameters on hollow fiber-forward osmosis membrane performances T. Majeed, S. Phuntsho, S. Sahebi, Jung Eun Kim (Sydney, Australia), Joon Khee Yoon, Kwonil Kim (Gyeonggi-Do, Korea) and Ho Kyong Shon (Sydney, Australia) .....	817
Pressure assisted forward osmosis for shale gas wastewater treatment Taekgeun Yun, Jae-Wuk Koo, Jinsik Sohn and Sangho Lee (Seoul, Korea) .....	829
Effect of feed temperature and membrane orientation on pre-treatment sludge volume reduction through forward osmosis S. Liyanaarachchi, V. Jegatheesan, I. Obagbemi (Geelong), S. Muthukumaran (Melbourne) and L. Shu (Geelong, Australia) .....	838
Effect of multiple cations in the feed solution on the performance of forward osmosis L. Shu, I.J. Obagbemi, V. Jegatheesan, S. Liyanaarachchi and K. Baskaran (Geelong, Australia) .....	845
Comparison between nanofiltration and forward osmosis in the treatment of dye solutions A. Ammar, I. Dofan, V. Jegatheesan (Geelong), S. Muthukumaran (Melbourne) and L. Shu (Geelong, Australia) .....	853
Theoretical analysis of different membrane distillation modules Jaewuk Koo, Sangho Lee (Seoul), June-Seok Choi and Tae-Mun Hwang (Kyonggi-do, Korea) .....	862
Effect of operating parameters on temperature and concentration polarization in vacuum membrane distillation process Eunkyung Jang (Daejeon), Sook-Hyun Nam (Gyeonggi-Do), Tae-Mun Hwang (Daejeon and Gyeonggi-Do), Sangho Lee (Seoul) and Yongjun Choi (Masan, Korea) .....	871
Removal of natural organic matter through membrane filtration and subsequent effect on disinfectant decay T. Shurvell, L. Fargo, V. Jegatheesan and L. Shu (Geelong, Australia) .....	881
Rejection and adsorption behaviour of phytoestrogens by nanofiltration and reverse osmosis membranes H.Q. Dang, W.E. Price and L.D. Nghiem (Wollongong, Australia) .....	890
Pilot study for sewage wastewater reclamation and reuse using RO membrane: comparison of different pre-treatment systems C.B. Ong, A.W. Mohammad, S.R.S. Abdullah, H. Abu Hasan and C.H. Koo (Bangi, Malaysia) .....	900
Development of the anaerobic baffled reactor-membrane bioreactor (ABR-MBR) as a biological nutrient removal system for high-rise building wastewater recycling C. Ratanatamskul, C. Charoenphol (Bangkok, Thailand) and K. Yamamoto (Tokyo, Japan) .....	908
Factors affecting the removal of isopropyl alcohol by reverse osmosis membranes for ultrapure water production Hongju Lee and Suhan Kim (Busan, Korea) .....	916
Changes in characteristics of polyamide reverse osmosis membrane due to chlorine attack Minseok Kim, Minjae Kim, Beomseok Park and Suhan Kim (Busan, Korea) .....	923
Micellar enhanced ultrafiltration (MEUF): activated carbon fiber (ACF) hybrid process using low surfactant concentration for zinc(II) removal from synthetic wastewater S. Sohan, Seung Hwan Lee (Gumi) and Tae Kwan Lee (Daegu, Korea) .....	929

Utilization of self-synthesized ZnO nanoparticles in MPR for industrial dye wastewater treatment using NF and UF membrane N.H.H. Hairom, A.W. Mohammad, L.Y. Ng and A.A.H. Kadhum (Bangi, Malaysia) .....	944
Phosphorus removal by a combined electrocoagulation and membrane filtration process for sewage reuse Jin Sun Kim, Tae-Eun Kim and Ihn-Sup Han (Seoul, Korea) .....	956
Modeling fouling of hollow fiber membrane using response surface methodology Yoon-Jin Kim, Jungwoo Jung, Sangho Lee and Jinsik Sohn (Seoul, Korea) .....	966
Evaluation of ceramic membrane applications for water treatment plants with a life cycle cost analysis Sung Hyuk Park (Incheon), Yong Gyun Park (Seoul), Jae-Lim Lim (Daejeon) and Suhan Kim (Busan, Korea) .....	973
Magnetised titanium dioxide (TiO <sub>2</sub> ) for water purification: preparation, characterisation and application M. Shahid, A. McDonagh (Broadway, Australia), Jong Ho Kim (Gwangju, Korea) and Ho Kyong Shon (Broadway, Australia) .....	979
Optimization of the UV/chlorine process for ammonia removal and disinfection by-products reduction Xinran Zhang, Weiguang Li, Xujin Gong, Wenbiao Fan and Pengfei Ren (Harbin, China) .....	1003
UV irradiation catalyzed persulfate advanced oxidation process for decolorization of Acid Blue 113 wastewater Hung-Yee Shu, Ming-Chin Chang and Shi-Wei Huang (Taichung, Taiwan) .....	1013
Degradation of bisphenol A by UV/H <sub>2</sub> O <sub>2</sub> oxidation in aqueous solution containing nitrate and alkalinity Chan G. Park, Eun Y. Jo, Seung M. Park (Gyeonggi-do), Hye W. Jeon (Gyeonggi-do and Seoul) and Kwang B. Ko (Seoul, Korea) .....	1022
Role of photo-oxidation and adsorption at water back-flushing in hybrid water treatment of multi-channels alumina MF and PP beads coated with photocatalyst Gyu Myung Gyeong and Jin Yong Park (Gangwon, Korea) .....	1029
Treatment and reuse of electronic wastewater using activated carbon based solid-phase advanced oxidation process Jinwook Chung (Gyeonggi-Do, Korea), Minseok Kim (Gangwon-do, Korea), So-Ryong Chae (Sydney, Australia) and Jong-Oh Kim (Seoul, Korea) .....	1038
Kinetics of electro-Fenton ferrous regeneration (EFFR) on chlorinated organic compound degradation T. Methatham (Khon Kaen, Thailand), Ming-Chun Lu (Tainan, Taiwan) and C. Ratanatamskul (Bangkok, Thailand) .....	1044
Material characterization and electrochemical performance of copper-based rare earth composite oxide electrodes for use in ammonia electrocatalytic oxidation Cheng-Di Dong, Chiu-Wen Chen, Chih-Feng Chen (Kaohsiung), Wen-Liang Lai (Pingtung) and Chang-Mao Hung (Kaohsiung, Taiwan) .....	1054
Succession of bacterial community in anaerobic–anoxic–aerobic (A <sup>2</sup> O) bioreactor using sludge fermentation liquid as carbon source Yali Liu, Yixing Yuan, Xin Li, Xiaorong Kang and Maoan Du (Harbin, China) .....	1061
Characteristics of direct CO <sub>2</sub> emissions in four full-scale wastewater treatment plants Zhiyuan Bao, Shichang Sun and Dezhi Sun (Beijing, China) .....	1070
Characteristics of pharmaceuticals removal in the sewage treatment process Shun-Hwa Lee (Gyeongsan, Korea), Chan-Gap Park (Sejong, Korea), Y. Onoda, N. Satou, A. Tabata (Tokyo, Japan), Se-Han Lee (Gyeongsan, Korea) and Byung-Dae Lee (Gyeongju, Korea) .....	1080
Reduction of phosphorous at WWTP combined with DAF and A2/O S.B. Kwon (Daejeon, Korea), D.I. Kim (Gyeonggi-do, Korea), Y.T. Guan (Shenzhen, China) and S. Dockko (Choongnam, Korea) .....	1090
Nitrogen and phosphorus removal in a novel extra-loop fluidized bed bioreactor (EFBBR) Yongsheng Lu (Shanghai, China and Limoges, France), C. Dagot and M. Baudu (Limoges, France) .....	1098
Characteristics of aerobic granulation at different organic and ammonium compositions Fenghao Cui, Bohyun Kim, Kyung Mo and Moonil Kim (Kyeonggido, Korea) .....	1109
Environmental evaluation of the application of compost sewage sludge to landscaping as soil amendments: a field experiment on the grassland soils in Beijing Weifang Ma, Fang Liu, Xiang Cheng (Beijing), Yang Jing (Qinhuangdao), Chao Nie and Panyue Zhang (Beijing, China) .....	1118
Characterization and coagulation performance of covalently bound organic silicate aluminum hybrid coagulants: effects of Si/Al, B value and pH Ying-Yue Chang and Hua-Zhang Zhao (Beijing, China) .....	1127

Removal of five selected pharmaceuticals by coagulation in the presence of dissolved humic acids and kaolin Weiwei Yang, Yunsong Wu, Liqiu Zhang, Jie Jiang and Li Feng (Beijing, China) .....	1134
Occurrence and removal of hazardous chemicals and toxic metals in 27 industrial wastewater treatment plants in Korea Wontae Lee, Soo-Hyung Park (Gumi), Jaehoon Kim (Incheon) and Jin-Young Jung (Gyeongsan, Korea) .....	1141
The hydrodynamics of an ozone contactor with horizontal meandering flow to enhance disinfection efficiency Dooil Kim (Gyeonggi-do), Kyung-Hyuk Lee (Daejeon), Hosun Lee, Yunjung Kim (Incheon) and Inhwan Hyun (Gyeonggi-do, Korea) .....	1150
Developing a method to measure actual CT distribution in an ozone contactor with a reactive tracer test Dooil Kim (Gyeonggi-do, Korea) .....	1158
Hybrid multi-walled carbon nanotubes-alginate-polysulfone beads for adsorption of bisphenol-A from aqueous solution M.R. Hartono (Singapore), R.S. Marks (Singapore and Beer-Sheva, Israel), Xiaodong Chen (Singapore) and A. Kushmaro (Singapore and Beer-Sheva, Israel) .....	1167
Activated carbon supported iron-nickel bimetallic nanoparticles for decolorization of Reactive Black 5 wastewater Hung-Yee Shu, Ming-Chin Chang and Hsin-Wen Hsu (Taichung, Taiwan) .....	1184
Preparation, characterization, and application of sludge with additive scrap iron-based activated carbons Xin Li, Wei-guang Li, Guang-zhi Wang, Ping Wang and Xu-jin Gong (Harbin, China) .....	1194
Granular laterite for batch and column studies of phosphate removal and its modification with iron for enhancing the adsorption property Qi Zhou, Jianyong Liu, Guangren Qian and Jizhi Zhou (Shanghai, China) .....	1204
Adsorptive removal of phosphate from secondary effluents in WWTPs by ZnAl layered double hydroxides granules Xuelin Chen, Xiang Cheng, Dezhi Sun, Weifang Ma (Beijing) and Xingzu Wang (Chongqing, China) .....	1216
The impact of humic acid on the removal of bisphenol A by adsorption and ozonation Bo-Ra Lim, Si-Hyun Do and Seong-Ho Hong (Seoul, Korea) .....	1226
Effects of rainfall characteristics on corrosion indices in Korean river basins Minsoo Maeng (Chungnam), Inhwan Hyun (Gyeonggi-do), Suingil Choi (Sejong-si) and Seok Dockko (Chungnam, Korea) .....	1233
Development and performance analysis of satellite communication system for real-time river monitoring Sung-Taek Hong (Daejeon), Seung-Hwan Lee (Gumi) and In-Kwang Hwang (Chungju, Korea) .....	1242
Analysis of the built-up processes for volatile organics and heavy metals in suspended solids from road run-off R. Aryal (Adelaide, Australia), H. Furumai, F. Nakajima (Tokyo, Japan), S. Beecham (Adelaide, Australia) and Byeong-Kyu Lee (Ulsan, Korea) .....	1254
Evaluating the leachable metals in Kaohsiung Harbor sediment using the toxicity characteristic leaching procedure (TCLP) Chiu-Wen Chen, Chih-Feng Chen, Chang-Mao Hung and Cheng-Di Dong (Kaohsiung, Taiwan) .....	1260
Groundwater levels estimation and forecasting by integrating precipitation-based period-dividing algorithm and response surface methodology Yongsun Choi (Gyeongnam), Youngik Choi, Tuan-Ho Le, Sangmun Shin (Busan) and Daeyoung Kwon (Gyeongnam, Korea) .....	1270
Effects of groundwater solutes on colloidal stability of polymer-coated and bare nanosized zero-valent iron particles Cheolyong Kim, Jun-Young Ahn, Kyung-Yup Hwang (Busan), Hong-Seok Kim (Gyeonggi-do), Dae-Young Kwon (Gyeongnam) and Inseong Hwang (Busan, Korea) .....	1281
Numerical simulations on shapes and materials and deterioration model of flexible sewer systems Soonyu Yu, Youngho Park, Sangil Hyun and Kyoohong Park (Seoul, Korea) .....	1290
Examination of the storage function of intercepting sewers using long-term flow monitoring data Jaena Ryu, Jaehyun Lee and Jeill Oh (Seoul, Korea) .....	1299
A methodology for simulating hydrogen sulphide generation in sewer network using EPA SWMM N. Marleni (Geelong, Australia), Kyoohong Park, Taehoon Lee (Seoul, Korea), D. Navaratna (Melbourne, Australia), Li Shu, V. Jegatheesan (Geelong, Australia), N. Pham and A. Feliciano (Melbourne, Australia) .....	1308
Analysis of the characteristics of fat, oil, and grease (FOG) deposits in sewerage systems in the case of Korea Hyunjun Shin, Sangjong Han and Hwankook Hwang (Gyeonggi-do, Korea) .....	1318

Storm water harvesting and reuse in Australia: enhanced sand filtration for the treatment of storm water C. McTaggart, L. Farago, V. Jegatheesan and L. Shu (Geelong, Australia) .....	1327
Characterizing stormwater treatment efficiency at the laboratory scale for effective rain garden design An Liu, Yizi Jiang (Shenzhen, China), Seok Dockko (Chungnam, Korea) and Yuntao Guan (Shenzhen and Beijing, China) .....	1334
Nutrient removal by different plants in wetland roof systems treating domestic wastewater P.T.H. Van, N.T. Tin, V.T.D. Hien, T.M. Quan, B.X. Thanh, V.T. Hang, D.Q. Tuc, N.P. Dan, L.V. Khoa, V.L. Phu (Ho Chi Minh City, Vietnam), N.T. Son (Taoyuan, Taiwan), N.D. Luong (Hanoi, Vietnam), E. Kwon, Changgyu Park, Jingyong Jung, Injae Yoon and Sijin Lee (Inchon, Korea) .....	1344
Science Walden: new horizons of combined ecological sanitation with separated urine/feeces and treatment wetlands Jongkwan Park (Seoul), Kyongmi Chon (Gwangju) and Jaeweon Cho (Seoul, Korea) .....	1353
Evaluation of the effect of a hydraulic impeller in a flocculation basin on hydrodynamic behavior using computational fluid dynamics Wen-Biao Fan, Wei-Guang Li, Xu-Jin Gong and Xin-Ran Zhang (Harbin, China) .....	1361
Color composition in a water reservoir and DBPs formation following coagulation and chlorination during its conventional water treatment in northeast of China Tiefu Xu, Chongwei Cui (Harbin) and Cong Ma (Tianjin, China) .....	1375
Study on water quality improvement by bank filtration Dae-Young Kwon (Gyeongnam, Korea) .....	1385
Prediction of water quality in piping system of bank filtrate Han S. Kim (Seoul), Inseong Hwang (Busan) and Daeyoung Kwon (Gyeongnam, Korea) .....	1393
Field application of waterworks automated meter reading systems and analysis of household water consumption Jin Chul Joo, Hyun Je Oh, Hosang Ahn, Chang Hyuk Ahn, Saeromi Lee (Goyang) and Kyung-Rok Ko (Seoul, Korea) .....	1401
A water supply risk assessment model for water distribution network Taeho Choi and Jayong Koo (Seoul, Korea) .....	1410
Elucidation of the dechlorination pathway of 1,2,3,4-TCDD through atomic charge calculation Shun-Hwa Lee and Byung-Dae Lee (Gyeongbuk, Korea) .....	1421
Effect of different types of calcium sulfate on the reactivity of cement/Fe(II) system in dechlorination of trichloroethylene P.A. Ghorpade, Min-Gyu Ha and Joo-Yang Park (Seoul, Korea) .....	1426
Characteristics of DBPs reduction of AOM by dissolved air flotation Ingyu Jeong (Choongnam, Korea), Minjoo Yi (Seoul, Korea), Huazhang Zhao (Beijing, China) and Seok Dockko (Choongnam, Korea) .....	1436
Decoloration of methylene blue hydrate by submerged plasma irradiation process Guntae Son (Gumi), Hongshin Lee, Joung-Eun Gu (Ulsan) and Seunghwan Lee (Gumi, Korea) .....	1445
Separation of gallium and copper from hydrochloric acid by D2EHPA Wei-Shen Chen, Shih-Lin Huang (Tainan), Fang-Chih Chang (Nan-Tou), Juu-En Chang (Tainan) and Ya-Nang Wang (Nan-Tou, Taiwan) .....	1452
Effect of water back-flushing and PP beads in hybrid water treatment of multi-channel alumina MF and photocatalyst-coated PP beads B. Amarsanaa and Jin Yong Park (Gangwon, Korea) .....	1457
A study of the distribution and composition of pollutants in snow collected from streets and a treatment system for recycling snow in winter cities Bin-Xia Xue, Li Wei, Chun-Ying Li and Tong-Yu Li (Harbin, China) .....	1470
Verification of wireless environment network simulation and reliability Gang-Wook Shin, Young-Kwan Choi, Sung-Taek Hong, An-Kyu Lee, Hye-Mi Park (Daejeon) and Seung-Hwan Lee (Gumi, Korea) .....	1479
Author Index .....	1487
