

Experimental and theoretical performance of finned-single effect solar still M. El-Naggar, A.A. El-Sebaii, M.R.I. Ramadan and S. Aboul-Enein (Tanta, Egypt) .....	17151
Performance analysis of single and double basin-inclined solar water distillation systems with and without black-fleece wick H.Ş. Aybar (Yozgat), F. Irani (Magosa) and M. Arslan (Yozgat, Turkey) .....	17167
Neuro-Wavelet (WNN) and Neuro-Fuzzy (ANFIS) systems for modeling hydrological time series in arid areas. A case study: the catchment of Ain Hadjadj (Algeria) M. Zakhrouf, H. Bouchelkia (Tlemcen) and M. Stamboul (Laghouat, Algeria) .....	17182
Prediction of sludge volume index bulking using image analysis and neural network at a full-scale activated sludge plant H. Boztoprak (Antalya), Y. Özbay, D. Güçlü and M. Küçükhemek (Konya, Turkey) .....	17195
Artificial neural network (ANN) technique for modeling the mercury adsorption from aqueous solution using <i>Sargassum bevanom</i> algae H. Esfandian, M. Parvini, B. Khoshandam (Semnan) and A. Samadi-Maybodi (Babolsar, Iran) .....	17206
Synthesis of CuO–NiO nanocomposite and dye adsorption modeling using artificial neural network N.M. Mahmoodi, Z. Hosseinabadi-Farahani, F. Bagherpour, M.R. Khoshrou, H. Chamani and F. Forouzeshfar (Tehran, Iran).....	17220
Effect of freezing–thawing on dissolved organic matter in water Jing Chen, Shuang Xue (Shenyang), Yingzi Lin (Changchun), Chao Wang, Qian Wang and Qi Han (Shenyang, China).....	17230
Cost function for treating wastewater in rural regions Yumin Wang, Lei Wu and Yanhong Feng (Nanjing, China) .....	17241
Culture of denitrifying phosphorus removal granules with different influent wastewater Qiulai He, Hongyu Wang, Xiaojun Yang, Jun Zhou, Yaping Ye, Dan Chen and Kai Yang (Wuhan, China) .....	17247
Influence of aeration rate on shortcut nitrification in an SBR treating anaerobic-digested piggery wastewater Jia Meng, Jianzheng Li, Bawei Zhao and Kaiwen Deng (Harbin, China) .....	17255
Ultrasound-assisted regeneration of granular activated carbon saturated by 4-chlorophenol in batch-loop reactor S. Guilane and O. Hamdaoui (Annaba, Algeria) .....	17262
Comprehensive pilot-scale investigation of seawater nanofiltration softening by increasing permeate recovery with recirculation Yuefei Song, Tiemei Li, Jianguo Zhou, Feng Pan (Xinxiang), Baowei Su and Congjie Gao (Qingdao, China).....	17271
Membrane fouling control in the integrated process of magnetic anion exchange and ultrafiltration Zhaohui Zhang, Qianqian Chen, Liang Wang, Hongwei Zhang, Bin Zhao and Cong Ma (Tianjin, China) .....	17283
Novel anammox reactor start-up method using immobilized particles as biocatalyst and its kinetic characteristics Guanghui Chen, Jun Li (Beijing), Yonglei Wang (Beijing and Jinan), Hailiang Deng, Yanzhuo Zhang and Jinping Zeng (Beijing, China).....	17291
Investigation of ceramic membranes performance for tannery wastewater treatment S.S. Kaplan-Bekaroglu and S. Gode (Isparta, Turkey) .....	17300
Preparation of a ceramic membrane from prevalent natural clay for the purification of phosphate wastewater Baomin Fan, Gang Wei, Hua Hao, Anru Guo and Jie Li (Beijing, China) .....	17308
Improvement of green table olive processing wastewater decolorization by <i>Geotrichum candidum</i> L. Ayed, N. Asses, N. Chammem and M. Hamdi (Tunis, Tunisia).....	17322

Synthesis, characterization and performance evaluation of PVDF-SPES-ZrO <sub>2</sub> membrane S.B. Mishra, S. Sachan (Allahabad), S.N. Upadhyay and P.K. Mishra (Varanasi, India) .....	17333
Sorption characteristics of tetrabromobisphenol A by oxidized and ethylenediamine-functionalized multi-walled carbon nanotubes Jun Zhang, Yunhai Zhang, Shuili Yu and Yulin Tang (Shanghai, China).....	17343
Ruthenium hydroxide supported on activated alumina for catalytic permanganate oxidation of aniline Jing Zhang, Ruijia Zhang (Nanjing), Ying Gao (Nanjing and Changzhou) and Ying Zhang (Beijing, China) .....	17355
Carboxylate functionalized wool fibers for removal of Cu(II) and Pb(II) from aqueous solution Zhonglong Yin, Min Chen (Chengdu), Sheng Hu (Mianyang) and Haiming Cheng (Chengdu, China) .....	17367
Marble slurry waste as a scavenger material for Cr(III) ions from aqueous medium M. Bhalothia, N. Suman, P.K. Baroliya, R. Dashora and A.K. Goswami (Udaipur, India).....	17377
Characterization of different types of bentonites and their applications as adsorbents of Co(II) and Ni(II) M. Hayati-Ashtiani (Kashan) and H. Azimi (Tehran, Iran) .....	17384
Simultaneous biosorption of methylene blue and trivalent chromium onto olive stone M.C. Trujillo, M.A. Martín-Lara (Granada, Spain), A.B. Albadarin (Belfast, UK and Limerick, Ireland), C. Mangwandi (Belfast, UK) and M. Calero (Granada, Spain).....	17400
Simultaneous removal of Ag(I), Cd(II), Cr(III), Ni(II), Pb(II), and Zn(II) from wastewater using humic acid-coated aminopropyl silica gel A. Imyim, C. Thanacharuphamorn, A. Saithongdee, F. Unob and V. Ruangpornvisuti (Bangkok, Thailand) .....	17411
Adsorption of heavy metals from aqueous solution by magnetite nanoparticles and magnetite-kaolinite nanocomposite: equilibrium, isotherm and kinetic study M.R. Lasheen, I.Y. El-Sherif, D.Y. Sabry, S.T. El-Wakeel and M.F. El-Shahat (Cairo, Egypt).....	17421
Characterization and evaluation of a macroporous anion exchange resin for nitrate removal from drinking water Yongxiang Ren, Yuanyuan Ye, Jing Zhu, Ke Hu (Xi'an) and Yujiao Wang (Chengdu, China) .....	17430
Continuous column study of Cu(II) and Pb(II) ions on alkali-treated coir S. Singh, S. Gondhalekar and S.R. Shukla (Mumbai, India) .....	17440
Magnetic iron oxide nanoparticles modified by methyl trioctyl ammonium chloride as an adsorbent for the removal of erythrosine from aqueous solutions N. Pourreza, H. Parham and M.A. Pourbati (Ahvaz, Iran) .....	17454
Removal of total petroleum hydrocarbon from water using attapulgite fiber silica aerogel composite Yuling Zhang, Jiangyan Dang, Xiaosi Su and Huanchi Jin (Changchun, China) .....	17463
Removal of NO <sub>3</sub> <sup>-</sup> by (cordierite/ZrO <sub>2</sub> ) membrane modified by microparticles F. Abidar, A. Soudani, M. Morghi, M. Chiban, M. Zerbet and F. Sinan (Agadir, Morocco) .....	17473
Coke/Fe <sub>3</sub> O <sub>4</sub> nanoparticle composites: synthesis, characterization and adsorption behaviour towards organic dyes S.K. Giri, P. Sahoo (Baripada), R. Das (Bhubaneswar) and N. Das (Baripada and Cuttack, India) .....	17483
Evaluation of the mesoporous silica material MCM-41 for competitive adsorption of Basic Violet 5BN and Basic Green from industrial dye wastewater Meili Zhang, Yunhai Wu, Yiang Fan, Wenjie Zhu, Huaiyang Zhao and Aynigar Arkin (Nanjing, China) .....	17494
A comparative study of different diatomite-supported TiO <sub>2</sub> composites and their photocatalytic performance for dye degradation Guangxin Zhang, Bin Wang, Zhiming Sun, Shuilin Zheng and Shushu Liu (Beijing, China) .....	17512
Synthesis of chitosan based semi-IPN hydrogels using epichlorohydrine as crosslinker to study the adsorption kinetics of Rhodamine B F.S. Al-Mubaddel, M.O. Aijaz, S. Haider (Riyadh, Saudi Arabia), A. Haider (Daegu, Korea), W.A. Almasry and A.S. Al-Fatesh (Riyadh, Saudi Arabia).....	17523
Considerable discrepancies among HPC, ATP, and FCM detection methods in evaluating the disinfection efficiency of gram-positive and -negative bacterium by ultraviolet radiation and chlorination Xiujuan Kong, Jun Ma (Harbin), Gang Wen (Xi'an) and Youda Wei (Shanghai, China) .....	17537
Degradation of Orange G dye by hexacyanoferrate(III) ions in the presence of iridium nanoparticles: effect of system parameters and kinetic study A. Goel and R. Lasyal (Haridwar, India).....	17547

The influence of surface functionalization of activated carbon on dyes and metal ion removal from aqueous media A. Belayachi, B. Bestani (Mostaganem), A. Bendraoua (Oran), N. Benderdouche (Mostaganem, Algeria) and L. Duclaux (Chambéry, France) .....	17557
Kinetic and computational evaluation of activated carbon produced from rubber tires toward the adsorption of nickel in aqueous solutions M.N. Siddiqui, H.H. Redhwi, A.A. Al-Saadi, M. Rajeh and T.A. Saleh (Dhahran, Saudi Arabia) .....	17570
Benzene degradation with bacterial strains isolated from rhizosphere of <i>Cannabis sativa</i> being irrigated with petroleum refinery wastewater M.S.B. Zahid, A. Iqbal and M. Arshad (Islamabad, Pakistan) .....	17579
Adsorption study for removal of sunset yellow by ethylenediamine-modified peanut husk Yinghua Song, Hui Xu and Jianmin Ren (Chongqing, China) .....	17585
A method for the removal of Cu(II) from aqueous solutions by sulfide precipitation employing heavy oil fly ash N. Rostamnezhad, D. Kahforoushan, E. Sahraei, S. Ghanbarian and M. Shabani (Tabriz, Iran).....	17593
Extracting metals from aqueous solutions using Ti-based nanostructures: a review F.J. Alguacil, F.A. Lopez and I. Garcia-Diaz (Madrid, Spain) .....	17603
Optimization analysis of mixing-assisted oxidative desulfurization of model sulfur compounds using commercial ferrate(VI) A.E.S. Choi, S. Roces, N. Dugos (Manila), C.M. Futalan (Makati, Philippines) and M.-W. Wan (Tainan, Taiwan).....	17616
Author Index .....	17624
