

**Volume 57 Issue 40**

Technical evaluation of simple condenser devices for a bubble column desalinator M. Schmack, Goen Ho and M. Anda (Murdoch, Western Australia).....	18573
Optimised exergy efficiency of a combined flash spray desalinator recovering discharge thermal energy A. Hosseini Araghi, M. Khiadani (Joondalup), K. Hooman (Brisbane) and G. Lucas (Joondalup, Australia).....	18588
Effect of effluent circulation and hydraulic retention time (HRT) on the performance of a modified anaerobic baffled reactor (MABR) during start-up period M.A. Mohd Aris (Johor), S. Chelliapan (Kuala Lumpur), M.F.Md. Din, A. Nor Anwar, R. Shahperi (Johor) and S. Bannir Selvam (Kuala Lumpur, Malaysia) .....	18597
A statistical approach for identification of potential pollution incidents due to lignite mining activity in a surface water stream A. Sfikas, P. Angelidis (Kozani) and D. Petridis (Thessaloniki, Greece) .....	18606
Multiple views of biological stability and optimized coagulation in the control of biostability in traditional water treatment processes: a pilot test Jin Wang, Huaqiang Chu and Bingzhi Dong (Shanghai, China).....	18619
Modeling and optimization of treatment of milk industry wastewater using chitosan–zinc oxide nanocomposite K. Thirugnanasambandham and V. Sivakumar (Chennai, India).....	18630
The role of energy to solve water scarcity in Qatar M.A. Darwish, H. Abdulrahim, S. Mohammed and R. Mohtar (Doha, Qatar) .....	18639
Vulnerability to climate change of surface water resources of coastal areas of Sindh, Pakistan A. Alamgir, M. Ali Khan (Karachi, Pakistan), I. Manino (Venice, Italy), S.S. Shaukat and S. Shahab (Karachi, Pakistan) .....	18668
The influence of lower temperature, influent fluctuations and long retention time on the performance of an upflow mode laboratory-scale septic tank L. Daija, A. Selberg, E. Rikmann, I. Zekker, Taavo Tenno and Toomas Tenno (Tartu, Estonia) .....	18679
Hexavalent chromium removal from aqueous solutions by biosorbents (non-living activated sludge) H. Mihçioğru and M. Oğuz (Kayseri, Turkey) .....	18688
A detailed study on adsorption isotherms of Hg(II) removal from aqueous solutions using nanostructured sorbent ZnCl <sub>2</sub> -MCM-41 F. Raji, M. Pakizeh (Mashhad, Iran), A. Saraeian (Las Cruces, NM, USA) and M. Raji (Kashan, Iran) .....	18694
Bulk liquid membrane extraction of silver(I) with 2-mercaptobenzothiazole as a carrier: Kinetic approach L. Mitiche, I. Ait Khaldoun (Tizi-Ouzou, Algeria), S. Tingry (Montpellier, France) and A. Sahmoune (Tizi-Ouzou, Algeria) .....	18710
A comparative study of synthetic and natural coagulants for silver nanoparticles removal from wastewater T. Ahmed (Islamabad), Z.A. Bhatti (Abbottabad), F. Maqbool (Manshera), Q. Mahmood, Faridullah (Abbottabad, Pakistan), S. Qayyum (Qingdao, China) and N. Mushtaq (Abbottabad, Pakistan).....	18718
Removal of Ni(II) in aqueous solutions by foam fractionation Wenyao Shao, Jingyun Zhang, Anni Feng, Xueshan Pan and Zongyuan Xiao (Xiamen, China).....	18724
Efficient use of novel hybrid materials in the ultra-trace determination of arsenic from aqueous solutions: an electrochemical study Zirlianggura, A. Jamsheera, D. Tiwari (Aizawl, India) and Seung Mok Lee (Gangneung, Korea).....	18730
Optimization of As(V) removal using chitosan-coated bentonite from groundwater using Box–Behnken design: effects of adsorbent mass, flow rate, and initial concentration C.V.J. Arida, M.D.G. de Luna (Quezon City), C.M. Futralan (Makati, Philippines) and Meng-Wei Wan (Tainan, Taiwan).....	18739

Binary adsorption of nickel and zinc from aqueous solutions onto the Serbian natural clinoptilolite D. Stojakovic, J. Milenkovic, S. Stupar, Z. Velickovic and N. Rajic (Belgrade, Serbia) .....	18748
Functionalized copper oxide–zinc oxide nanocomposite: synthesis and genetic programming model of dye adsorption N.M. Mahmoodi, H. Chamani and H.-R. Kariminia (Tehran, Iran) .....	18755
Removal of Ni(II), Zn(II) and Pb(II) from aqueous solutions using cation-exchange resin in fixed-bed column M. Hamdzah (Johor Bahru), Z. Ujang (Putrajaya), M.M. Nasef (Kuala Lumpur), N. Abdullah (Johor Bahru) and F.A. Dahalan (Arau, Malaysia) .....	18770
Removal of cadmium and lead from aqueous solutions by magnetic acid-treated activated carbon nanocomposite A. Jafari Kang, M. Baghdadi and A. Pardakhti (Tehran, Iran) .....	18782
Removal of lead(II) ions from aqueous solutions using diatomite nanoparticles H. Beheshti and M. Irani (Tehran, Iran) .....	18799
Trace metal surface water inflow and retention in different terms of the wetland A. Çelebi (Oulu, Finland and Sakarya, Turkey) .....	18806
Sedimentation of TiO <sub>2</sub> nanoparticles in aqueous solutions: influence of pH, ionic strength, and adsorption of humic acid Jing Lu, Dongmei Liu, Xiaonan Yang, Haixing Liu, Shiguang Liu, Huan Tang, Ying Zhao and Fuyi Cui (Harbin, China) .....	18817
The influence of carbonization temperature on the modification of TiO <sub>2</sub> in the removal of methyl orange from aqueous solution by adsorption S. Jafari (Mikkeli, Finland), B. Yahyaei (Hamedan, Iran), E. Kusiak-Nejman (Szczecin, Poland) and M. Sillanpää (Mikkeli, Finland) .....	18825
Raw and surfactant-modified pineapple leaf as adsorbent for removal of methylene blue and methyl orange from aqueous solution A.A. Kamaru, N.S. Sani and N.A.N.N. Malek (Johor Bahru, Malaysia) .....	18836
A comparative study on the adsorptive efficiency of low-cost adsorbents for the removal of methylene blue from its aqueous solution P. Meena Sundari and T. Meenambal (Coimbatore, India) .....	18851
Removal of methylene blue using <i>Phoenix dactylifera</i> /PVA composite; an eco-friendly adsorbent M.F. Zayed (Menoufia), W.H. Eisa and B. Anis (Giza, Egypt) .....	18861
Biosorption of methylene blue from aqueous solution by natural <i>Osmanthus fragrans</i> powder Bo Chai, Xianzhong Cheng, Zhandong Ren and Yuchan Zhu (Wuhan, China) .....	18868
Adsorption of dispersed red from aqueous solution onto calcined layered double hydroxides: equilibrium, kinetics studies Yulin Wang, Jianguang Li, Liang Lv, Guoyun Xv, Yuechao Wu, Jianjun Chen and Wei Hu (Quzhou, China) .....	18879
Biodegradation of dye-containing wastewater by fusant strains using a sequential anaerobic–aerobic process Zhiqiang Cai, Jiangtao Ma, Jing Wang, Jinyan Cai and Guanghua Yang (Changzhou, China) .....	18888
Photocatalytic treatment of colored wastewater from medical laboratories: photodegradation of Nuclear Fast Red E. Deletze, A. Antoniadis, V. Kitsiou (Thessaloniki, Greece), E. Kostopoulou (Larisa, Greece), D. Lutic, I. Cretescu (Iasi, Romania) and I. Poullos (Thessaloniki, Greece) .....	18897
Adsorption of 1,1-dimethylhydrazine (UDMH) from aqueous solution using magnetic carbon nanocomposite: kinetic and thermodynamic study A.R. Zarei, A. Pedram and H. Rezaeivahidian (Tehran, Iran) .....	18906
Process optimization for biodegradation of black liquor by immobilized novel bacterial consortium R. Paliwal, S. Uniyal, M. Verma (Pantnagar), A. Kumar (Roorkee) and J.P.N. Rai (Pantnagar, India) .....	18915
Thermosensitive/magnetic molecularly imprinted polymers prepared by Pickering emulsion polymerization for selective separation of bifenthrin Li Yang, Yao Chen, Jiangdong Dai, Naichao Si and Yongsheng Yan (Zhenjiang, China) .....	18927
Removal of pyridine from dilute aqueous streams using hollow fiber supported liquid membranes A.G. Yewale, N.D. Patil and A.W. Patwardhan (Matunga, India) .....	18939
Oxidation of pharmaceutical compounds by ozonation and ozone/activated carbon coupling: a kinetic approach O. Chedeville, A. Di Giusto, S. Delpoux and B. Cagnon (Orleans, France) .....	18956

Fixed-bed column dynamics of tetracycline hydrochloride using commercial grade activated carbon: comparison of linear and nonlinear mathematical modeling studies S. Swapna Priya and K.V. Radha (Chennai, India) .....	18964
Microwave-assisted regeneration of spent activated carbon from paracetamol wastewater plant using response surface methodology Song Cheng, Jian Wu, Hongying Xia, Jinhui Peng, ShiXing Wang and Libo Zhang (Kunming, China) .....	18981
The dynamics and equilibrium of ammonium removal from aqueous solution by Na-Y zeolite S. Haji, B.A. Al-Buqaishi, A.A. Bucheeri, Q. Bu-Ali, M. Al-Aseeri (Isa Town, Bahrain) and S. Ahmed (Dhahran, Saudi Arabia) .....	18992
Mechanism of heterogeneous catalytic ozonation of p-chloronitrobenzene in aqueous solution with iron silicate dried at different temperatures Yue Liu (Zhengzhou), Zhonglin Chen (Harbin), Xuejun Duan, Weijin Gong and Guimian Qin (Zhengzhou, China) .....	19002
Removal of fluoride from spiked water in the batch or static mode and also in the column or dynamic mode A. Sarma (Morigaon) and K.G. Bhattacharyya (Guwahati, India) .....	19010
Development and optimization of Ti/Cu cathode and Ti/IrO <sub>2</sub> anode for electrochemical denitrification P. Abeygunawardhana, N. Nanayakkara and M. Vithanage (Kandy, Sri Lanka) .....	19025
Benzene removal by hybrid of nanotubes and magnetic nanoparticle from aqueous solution H. Pourzamani (Isfahan, Iran), A.M. Samani Majd (Texas, TX, USA) and S. Fadaei (Isfahan, Iran) .....	19038
Author Index .....	19050
