

Characteristics of foulants of forward osmosis membranes used in municipal wastewater concentration processes S. Onoda, Y. Masumori, T. Miyoshi, M. Yasukawa, T. Takahashi and H. Matsuyama (Kobe, Japan).....	26383
Coagulation/flocculation process for dye removal using water treatment residuals: modelling through artificial neural networks M.R. Gadekar and M.M. Ahammed (Surat, India)	26392
Comparison of different modified aluminosilicate networks for the removal of diclofenac P.A. Gamboa, J.J. Ramírez-García (Toluca), M. Solache-Ríos (Mexico), C. Díaz-Nava (Metepc, Mexico) and J.L. Gallegos-Pérez (Irvine, CA, USA).....	26401
Influence of palm oil fuel ash, an agro-industry waste on the ultrafiltration performance of cellulose acetate butyrate membrane S.S. Shenvi, A.M. Isloor (Mangalore, India), A.L. Ahmad (Pinang, Malaysia), B. Garudachari (Mangalore, India) and A.F. Ismail (Johor Bahru, Malaysia)	26414
Removal of nitrate and Cr(VI) from drinking water by a macroporous anion exchange resin Yuanyuan Ye, Yongxiang Ren, Jing Zhu, Junping Wang and Bangyan Li (Xi'an, China)	26427
Functionalized PolyHIPE polymer monoliths as an anion-exchange media for removal of nitrate ions from aqueous solutions N. Barlık (Erzurum), B. Keskinler (Kocaeli), M.M. Kocakerim (Çankırı, Turkey) and G. Akay (Newcastle and London, UK)	26440
Adsorptive removal of p-nitroaniline from aqueous solution by bamboo charcoal: kinetics, isotherms, thermodynamics, and mechanisms Guangqian Wu (Nanjing), Guannan Wu (Hong Kong) and Qisheng Zhang (Nanjing, China)	26448
Preparation of iron-copper binary oxide and its effective removal on antimony(V) from water Yongchao Li, Xiaoxian Hu, Bozhi Ren, Jian Yue (Xiangtan) and Weichun Yang (Changsha, China).....	26461
Co ²⁺ ion adsorption behavior on plum stone carbon prepared by a solid-combustion process F. Granados-Correa, N.A. Sánchez-Flores and S. Bulbulian (Mexico, Mexico)	26472
Copolymerization of ethyl acrylate onto guar gum for the adsorption of Mg(II) and Ca(II) ions E. Fosso-Kankeu, F.B. Waanders and E. Maloy (Potchefstroom, South Africa)	26484
Humic substances as precursors for trihalomethanes yields upon chlorination M.B.M. Ibrahim, E.K. Radwan, A.S. Moursy (Giza) and A.H. Bedair (Cairo, Egypt)	26494

***Selected papers presented at the IDA 2015 World Congress (Desaltech 2015)
29 August–4 September, 2015 San Diego, CA, USA***

High recovery, low fouling, and low energy reverse osmosis R.L. Stover (Newton, MA, USA).....	26501
Mechanical vapor compression – Membrane distillation hybrids for reduced specific energy consumption J. Swaminathan, K.G. Nayar and J.H. Lienhard V (Cambridge, MA, USA).....	26507
Role of pressure-retarded osmosis (PRO) in the mega-ton water project M. Kurihara (Tokyo), H. Sakai (Nagasaki), A. Tanioka (Tokyo) and H. Tomioka (Otsu, Japan)	26518
Going big with forward osmosis M.M. Pendergast, M.S. Nowosielski-Slepowron and J. Tracy (Boston, MA, USA).....	26529
Effects of electrode design on electro dialysis reversal performance F. Naderi Behdani, M. Jaber, L. Karimi and A. Ghassemi (Las Cruces, NM, USA).....	26539
Cross-flow microsand filtration for membrane pre-treatment A. Silverwood, M. Bosisio and F. Bordeleau (Montreal, Canada)	26548

Thermoeconomic analysis of combined power cycle integrated with MSF/SWRO desalination plant O.A. Hamed (Jubail, Saudi Arabia).....	26552
Optimization of location of thermo-compressor suction in MED-TVC desalination plants I.S. Al-Mutaz and I. Wazeer (Riyadh, Saudi Arabia).....	26562
Rubidium recovery using potassium cobalt hexacyanoferrate sorbent T. Nur, G. Naidu, P. Loganathan, J. Kandasamy and S. Vigneswaran (Sydney, Australia).....	26577

***Selected papers presented at the 8th International Desalination Workshop (IDW) 2015
November 18–21, 2015, Jeju Island, Korea***

The effects of physical cleaning and chemical backwashing on foulant formation in a microfiltration membrane intended for the reuse of wastewater Chang-Ha Lee (Suwon), Young-Hoon Kim (Seoul), Min Jung Jeon, Am Jang, Jihoon Kim (Suwon) and Hyungsook Kim (Hwaseong, Korea)	26586
Hybrid water treatment process of carbon fiber microfiltration and photocatalyst-coated polypropylene beads: roles of humic acid, photo-oxidation, and adsorption Da Young An and Jin Yong Park (Gangwon, Korea)	26595
Comparison of media and membrane filtrations for seawater desalination pretreatment Dongkwan Kim (Gumi), Juneseok Choi (Goyang) and Wontae Lee (Gumi, Korea)	26606
An optimal design approach of forward osmosis and reverse osmosis hybrid process for seawater desalination Jongmin Jeon, Beomseok Park (Busan, Korea), Yeomin Yoon (Columbia, SC, USA) and Suhan Kim (Busan, Korea and Columbia, SC, USA)	26612
Relating membrane surface properties and flux recovery during the chemical cleaning of forward osmosis membrane K. Ruengruehan, P. Fagkaew (Yongin), Gwangtaek Ahn (Yongin and Dangjin), Seoktae Kang (Daejeon) and Seok-Oh Ko (Yongin, Korea)	26621
Adhesion potential of bacteria retrieved from intake seawater and membrane biofilms on full-scale reverse osmosis desalination process Youngpil Chun (Mawson Lakes, Australia and Gwangju), Donggeon Choi, Daehee Kim (Gwangju, Korea), R.W. Lovitt (Swansea, UK) and In Seop Chang (Gwangju, Korea)	26629
Influence of hydrophobic and electrostatic membrane surface properties on biofouling in a submerged membrane bioreactor under different filtration modes Youngpil Chun (Mawson Lakes and Sydney), D. Mulcahy (Mawson Lakes, Australia), L. Zou (Abu Dhabi, UAE), In S. Kim (Gwangju, Korea) and P. Le-Clech (Sydney, Australia).....	26641
The characteristic of passive adsorption using the submerged hydrophilic membrane in biological treatment process Changkyoo Choi (Gwangju), Kiyong Park (Cheongju) and In S. Kim (Gwangju, Korea).....	26648
Evaluation of forward osmosis membrane performance by using wastewater treatment plant effluents as feed solution Gyeong-Wan Go, Sung-Ju Im (Jangan-gu), Sang-Hak Lee (Danwon-Gu) and Am Jang (Jangan-gu, Korea)	26657
Thin-film nanocomposite membrane with vertically embedded carbon nanotube for forward osmosis Moon Son (Gwangju, Korea), V. Novotny (Gwangju, Korea and Prague, Czech Republic) and Heechul Choi (Gwangju, Korea).....	26670
Economic evaluation of the reverse osmosis and pressure retarded osmosis hybrid desalination process Yongjun Choi, Yonghyun Shin, Hyeongrak Cho, Yongsun Jang (Seoul), Tae-Mun Hwang (Goyang) and Sangho Lee (Seoul, Korea)	26680
Control performance evaluation of reverse osmosis desalination system based on model predictive control and PID controllers I.J. Esfahani, P. Ifaei, J. Rshidi and Changkyoo Yoo (Yongin, Korea)	26692
Application of ceramic membrane for seawater desalination pretreatment Joon-Seok Kang, Su Chang Sung, Jeong Jun Lee and Han-Seung Kim (Yongin, Korea).....	26700

Effect of transmembrane pressure, linear velocity, and temperature on permeate water flux of high-density vertically aligned carbon nanotube membranes Kwang-Jin Lee and Hee-Deung Park (Seoul, Korea)	26706
Membrane distillation of high salinity wastewater from shale gas extraction: effect of antiscalants Hyeonrak Cho, Yongjun Choi, Sangho Lee, Jinsik Sohn (Seongbuk) and Jaewuk Koo (Goyang, Korea)	26718
Pre-coating of outside-inside capillary UF membranes with iron hydroxide particles to limit nonbackwashable fouling during seawater algal blooms S.G. Salinas-Rodriguez, A. Prabowo, A. Abushaban, F. Battes, J.C. Schippers and M.D. Kennedy (Delft, The Netherlands)	26730
Electrodialysis of groundwater with heavy metal and nitrate ions under low conductivity and effects of superficial velocities Su Young Choi, Keun Young Park, Yongjae Yu, Hee Jun Kim, Ki Young Park, Ji Hyang Kweon (Seoul) and Jae Wan Choe (Gwangju, Korea)	26741
Use of concentrate water from seawater desalination plant as magnesium sources for struvite formation by using anaerobically digested effluent of swine wastewater Daegi Kim (Seoul), Kyung Jin Min (Seoul and Gyunggi), Min Sung Yu, Kwanyong Lee, Jihyang Kweon and Ki Young Park (Seoul, Korea).....	26751
Changes in the properties of a solution using pulsed electric field treatment as pretreatment of membrane filtration Jinwook Chung (Suwon), Hayoung Kang and Jong-Oh Kim (Seoul, Korea).....	26758
Photodegradation and permeability of conventional photocatalytic reactor and two different submerged membrane photocatalytic reactors for the removal of humic acid in water Jong-Tae Jung (Ansan), Won-Hee Lee and Jong-Oh Kim (Seongdong, Korea)	26765
Determination of the forecasting-model parameters by statistical analysis for development of algae warning system Gooyong Lee, F.B. Othman (Kuala Lumpur, Malaysia), S.B. Ibrahim and Min Jang (Seoul, Korea)	26773
Monthly chlorophyll-a prediction using neuro-genetic algorithm for water quality management in lakes Gooyong Lee (Kuala Lumpur, Malaysia), Jungeun Bae (Daejeon, Korea), Sangeun Lee (Anyang, Korea), Min Jang (Seoul, Korea) and Heekyung Park (Daejeon, Korea).....	26783
Application study of red tide monitoring to desalination plants using chollian (COMS) Taewoo Kim, Jihoon Kim, Hongsik Yun and Hyungsoo Kim (Suwon, Korea).....	26792

Selected papers presented at Trombay Symposium on Desalination and Water Reuse Mumbai, India, 22–23 January 2015

Nanocomposite membranes J.H. Jhaveri and Z.V.P. Murthy (Surat, India).....	26803
PSU/PET copolymer-based asymmetric polymeric membranes: influence of antioxidant S. Rajesh and Z.V.P. Murthy (Surat, India)	26820
Experimental study on the vacuum load of low-temperature thermal desalination plant D. Balaji, R. Abraham and M.V. Ramana Murthy (Chennai, India)	26830
Use of solid extraction chromatography for determination of uranium in sea water and brine S.P. Prabhu, T.L. Prasad and D.D. Rao (Mumbai, India)	26845
Preparation and performance of poly (vinyl chloride)/aminated poly (vinyl chloride) blend ultrafiltration membranes V. Murugan (Kalpakkam), D. Mohan (Chennai) and M.M. Rajput (Kalpakkam, India)	26850
Biofouling control on ultrafiltration membrane through immobilization of polysaccharide-degrading enzyme: optimization of parameters P. Meshram, R. Dave, H. Joshi (Kalpakkam), G. Dharani, R. Kirubakaran (Chennai) and V.P. Venugopalan (Kalpakkam, India)	26861
Capacitive deionization of ground water using carbon aerogel based electrodes D.K. Kohli, S. Bhartiya, A. Singh, R. Singh, M.K. Singh and P.K. Gupta (Indore, India)	26871

Green technology for monitoring the quality of water: determination of toxic trace analyte concentrations using multielemental mixed micelle cloud point extraction N.N. Meeravali, R. Manjusha, K. Madhavi and S. Jai Kumar (Hyderabad, India).....	26880
Recovery and development of correlations for heat and mass transfer in vacuum membrane distillation for desalination S. Upadhyaya, K. Singh, S.P. Chaurasia, R.K. Dohare and M. Agarwal (Jaipur, India).....	26886
Efficiency evaluation of treatment methods adopted for safe disposal of rinse water generated from electrochemical processes B.Q. Khattak, S.K. Sharma, B.P. Singh and P. Ram Sankar (Indore, India)	26899
Author Index.....	26906
