

**Contents**  
**Volume 6**

*Issues 1–2*

*Papers from IWA Efficient 2007 Conference, May 20–23, 2007, Jeju, Korea*

Characterization of NOM and THM formation potential in reservoir source water Z.-s. Liu (Harbin), J. Yin, L. Liu and Y.-j. Yu (Changchun, China) .....	1
Construction of a treated wastewater reuse system for renewal of a water cycle mechanism in urban areas – modeling analysis of reclamation treatment processes corresponding to target water quality by use H. Kon (Tokyo) and M. Watanabe (Ehime, Japan).....	5
Determination of target water quality indicators and values on total maximum daily loads management system in Korea B.K. Park, J.H. Park, S.Y. Oh (Incheon), D.S. Kong (Kyongki-do), D.H. Rhew, D.I. Jung, Y.S. Kim (Incheon), S.I. Choi, Z.W. Yun (Seoul) and K.S. Min (Daegu, Korea) .....	12

*Papers from the conference on Membranes in Drinking Water Production and Wastewater Treatment,  
20–22 October 2008, Toulouse, France*

Effect of concentrate recycle on anti-scalant performance D. Hasson, S. Rachamim and R. Semiat (Haifa, Israel) .....	18
A new and appropriate fibre sheet configuration for MBR technologies A. Grélot, A. Busnot, P. Grelier, A. Tazi-Pain (Maisons-Laffitte, France), M. Heijnen (Greifenberg, Germany) and A. Grasmick (Montpellier, France) .....	25
Impact of MBR flux enhancer on floc size distribution, dewaterability and shear stability V. Iversen, J. Villwock, T. de la Torre Garcia, A. Drews and M. Kraume (Berlin, Germany) .....	33
Metallic ion extraction using polymer inclusion membranes (PIMs): Optimising physical strength and extraction rate A. Uptis, J. Peterson, C. Lukey and L.D. Nghiem (Wollongong, Australia) .....	41
Mechanisms of transfer of ionic solutes through composite polymer nano-filtration membranes in view of their high sulfate/chloride selectivities A. Yaroshchuk (Barcelona), X. Martínez-Lladó, L. Llenas, M. Rovira, J. de Pablo (Manresa), J. Flores and P. Rubio (Barcelona, Spain) .....	48
Mine water treatment by membrane filtration processes – Experimental investigations on applicability A. Rieger, P. Steinberger (Freiberg), W. Pelz (Erlangen), R. Haseneder and G. Härtel (Freiberg, Germany) .....	54
Performance of high area spiral wound elements in waste water reuse RO system R. Boda, E. Chaumien (Oceanside, CA, USA) .....	61
Temporal variation of foulant characteristics in membrane bioreactor R.K. Aryal (Sydney, Australia), J. Lebegue (Montpellier, France), H.K. Shon, S. Vigneswaran, J. Kandasamy (Sydney, Australia) and A. Grasmick (Montpellier, France) .....	69
Effects of preadsorption by carbon black on membrane filtration of natural organic matter J. Lohwacharin, K. Oguma and S. Takizawa (Tokyo, Japan) .....	74
Large diameter RO elements: A summary of recent operating experiences P. Moss and R. Skelton (Stafford, UK) .....	80
Mass transport modelling to estimate the efficiency of nanofiltration application for the recovery of phosphorus from sewage sludge C. Niewersch, C. Abels, R. Li, T. Wintgens and T. Melin (Aachen, Germany) .....	86

Optimizing inline coagulation to reduce chemical consumption in MF/UF systems S.A.A. Tabatabai, M.D. Kennedy, G.L. Amy and J.C. Schippers (Delft, The Netherlands).....	94
Influencing parameters for the operation of an MBR with respect to the removal of persistent organic pollutants P. Lipp, K. Kreißel (Karlsruhe), S. Meuler (Berching), F. Bischof (Amberg) and A. Tiehm (Karlsruhe, Germany) .....	102
Influence of intermittent aeration and relaxation on a side-stream membrane bioreactor for municipal wastewater treatment S. Pollet, C. Guigui and C. Cabassud (Toulouse, France) .....	108
Performance of ultrafiltration plants in France A. Leroux and J.J. Banham (Oceanside, CA, USA) .....	119
Engineering design of Qingdao seawater desalination plant J. Salas, F.J. Bernaola, J. Pérez, B. Ruescas, A.R. Frutos, R. Moíño and P. Almagro (Seville, Spain) .....	125
Retention of soluble microbial products in submerged membrane bioreactors X.-M. Wang and T.D. Waite (Sydney, Australia) .....	131
Scaling potential calculations using different methods A. Alhadidi, M. Kennedy (Delft), A. Diepeveen (Assen), H. Prummel, M. Boorsma (Gilimmen) and J.C. Schippers (Delft, The Netherlands) .....	138
The safe use of cationic flocculants with reverse osmosis membranes S.P. Chesters, E.G. Darton, S. Gallego and F.D. Vigo (Winsford, UK) .....	144
Wastewater mineralization using advanced oxidation process A. Bach, G. Zelmanov and R. Semiat (Haifa, Israel) .....	152
Feasibility evaluation for the industrial reuse of wastewater with moderate chloride concentration in central Italy R. Iannelli, E. Patrizi and D. Giraldo (Pisa, Italy) .....	160
Transparent exopolymer particle (TEP) fouling of ultrafiltration membrane systems M.D. Kennedy, F.P.M. Tobar, G. Amy and J.C. Schippers (Delft, The Netherlands).....	169
CFD simulation of a membrane distillation module channel A. Cipollina, A.D. Miceli (Palermo, Italy), J. Koschikowski (Freiburg, Germany), G. Micale and L. Rizzuti (Palermo, Italy) .....	177
Enhancement of membrane filtration ability by pretreatment of secondary effluent using a new photocatalytic oxidation system R.-Y. Horng, C.-P. Huang, M.-C. Chang, H. Shao (Hsinchu, Taiwan), M. Ernst and M. Jekel (Berlin, Germany) .....	184
Iron (2,3) oxides based nano-particles as catalysts in advanced organic aqueous oxidation G. Zelmanov and R. Semiat (Haifa, Israel) .....	190
Upgrading and capacity extension of old brackish water desalination plants P. Glueckstern and M. Priel (Tel Aviv, Israel) .....	192
Removal of emerging contaminants of industrial origin by NF/RO – A pilot scale study D. Dolar, K. Košutić, D. Mutavdžić Pavlović and B. Kunst (Zagreb, Croatia) .....	197
Removal of Direct Blue 71 from wastewater using micellar enhanced ultrafiltration N. Zaghbani, A. Hafiane and M. Dhahbi (Soliman, Tunisia) .....	204
Micellar enhanced ultrafiltration for phosphorus removal in domestic wastewater R. Camarillo, I. Asencio and J. Rincón (Toledo, Spain) .....	211
Ozonation and perozone of humic acids in nanofiltration concentrates S. Van Geluwe, L. Braeken (Heverlee), C. Vinckier and B. Van der Bruggen (Leuven, Belgium) .....	217
Preparation and characterization of tubular membrane supports using centrifugal casting A. Harabi (Constantine), F. Bouzerara (Jijel, Algeria) and S. Condom (Montpellier, France) .....	222
Market and design considerations of the 37 larger MBR plants in Europe B. Lesjean (Berlin, Germany), V. Ferre (London, UK), E. Vonghia (Oakville, Canada) and H. Moeslang (Ratingen, Germany).....	227

Issue 3

Selective monosaccharides extraction mediated by methyl cholate in a supported liquid membrane H. Hassoune (Mont-Saint-Aignan, France and Settat, Morocco), T. Rhlalou (Settat, Morocco) and J.-F. Verchère (Mont-Saint-Aignan, France) .....	234
Experimental validation of an optimized solar humidification-dehumidification desalination unit S.M. Soufari, M. Zamen and M. Amidpour (Tehran, Iran) .....	244
Adsorption, kinetic and equilibrium studies on removal of basic dye from aqueous solutions using hydrolyzed oak sawdust M.M.A. El-Latif and A.M. Ibrahim (Alexandria, Egypt) .....	252
Removal kinetics and mechanism for phenol uptake by surfactant-modified alumina A. Adak (Howrah) and A. Pal (Kharagpur, India).....	269
The influence of seawater temperature on the net driving force and CP degree in reverse osmosis S. Agashichev, S. Almalek, A. Almazrouei, E. Osman, J. Kumar, T. Ali and M. Abdulla (Abu Dhabi, UAE) .....	276
Influence of feed conditions on the rejection of salt and dye in aqueous solution by different characteristics of hollow fiber nanofiltration membranes A.F. Ismail and W.J. Lau (Johor, Malaysia) .....	281
Oily wastewater treatment using ultrafiltration A. Salah, T. Mohammadi, A.R. Pour and F. Rekabdar (Tehran, Iran) .....	289
The efficiency of the flotation technique for the removal of nickel ions from aqueous solution Y. Hannachi and A. Hannachi (Tunis, Tunisia) .....	299
Author Index .....	307
