Volume 83

| | |
|---|-----|
| Method for distinguishing between abiotic organic and biological fouling of reverse osmosis elements used to treat wastewater G. Massons-Gassol, G. Gilabert-Oriol, V. Gomez, R. Garcia-Valls, V. Garcia Molina, T. Arrowood (Spain) | 1 |
| An influence of experimental parameters in the treatment of anaerobically treated distillery spent wash by using ozone assisted electrocoagulation M.P. Wagh, P.D. Nemade (India) | 7 |
| Green stormwater infrastructure with low impact development concept: a review of current research M. Shafique, Reeho Kim (Korea) | 16 |
| Bioremediation of sulfate-rich wastewater using lactate-fed sulfidogenic enrichment culture predominantly <i>Desulfovibrio</i> sp.: Box-Behnken design optimization K. Vasantharaj, M. Jerold, C. Vigneshwaran, M. Velan, V. Sivasubramanian (India) | 30 |
| Three electrode system for <i>Microcystis aeruginosa</i> removal on boron-doped diamond and aluminum electrode Yaqing Zhang, Ping Xiang, Yu Fang, Xun Wang (China) | 40 |
| Evaluation of humic acid removal efficiency in aqueous solution by feather protein granule M.H. Salmani, M. Farzi, A.H. Mahvi, M.H. Ehrampoush, M. Askarishahi | 47 |
| Degradation of iohexol by UV irradiation: kinetics, pathways and iodinated trihalomethanes formation during post-chlorination Yan-Zheng Liu, Xiao-Chang Wang, Fu-Xiang Tian, Hai-Bo Xing, Rong Chen, Ying Shen (China) | 56 |
| Influence of EFB-based biochar on complete removal of TSS and decolorization of palm-oil-mill-effluent (POME) M.R. Ketabchi, S. Manickam (Malaysia), R.R. Mohammed (Iraq), G. McKay (Qatar) | 66 |
| Removal of diclofenac from water with calcined ZnAlFe-CO ₃ layered double hydroxides: Effect of contact time, concentration, pH and temperature R. Ghemit, M. Boutahala, A. Kahoul (Algeria) | 75 |
| Packed column dynamic studies and breakthrough curve analysis for adsorption of paraquat herbicide onto agroindustrial ashes M.G. Kamble, M.D. Nagrale, A.A. Kamdi, S.K. Deokar, S.A. Mandavgane (India) | 86 |
| Highly efficient removal of phosphate using a novel Fe-La binary (hydro)oxide as adsorbent: behavior and mechanism Wei Zhang, Xiaowen Wang, Jing Chen, Gaosheng Zhang (China) | 98 |
| Potential of <i>Saccharomyces cerevisiae</i> flocculent strain to biosorb copper and cadmium metal ions from aqueous solution S. Saini, I. Kaur, J.K. Katnoria (India) | 111 |
| Magnetic solid phase extraction of Cd (II) using magnetic nanoparticle (MNPs) and silica coated magnetic nanoparticles (SiMNPs) from environmental water samples M. Khan, J. Shah, M.R. Jan (Pakistan) | 123 |
| Optimization of lead ions adsorption on hydrolyzed polyacrylonitrile fibers using central composite design P. Karimineghlani (USA), P.K. Neghlani (Sweden), A. Azadmehr (Iran) | 133 |
| Modeling mercury (II) removal at ultra-low levels from aqueous solution using graphene oxide functionalized with magnetic nanoparticles: optimization, kinetics, and isotherm studies M. Khazaei, S. Nasser, M.R. Ganjali, M. Khoobi, R. Nabizadeh, A.H. Mahvi, E. Gholibegloo, S. Nazmara (Iran) | 144 |

| | |
|---|-----|
| Biosorption of heavy metals: a case study using potato peel waste Yong Sun (Australia), Gang Yang (China), Lian Zhang (Australia) | 159 |
| Lignosulfonate-based ternary nanocomposite hydrogels for efficient textile dye absorption Zhili Zhang, Rendang Yang, Wenhua Gao, Kefu Chen (China) | 168 |

Selected papers presented at the 5th Maghreb Conference on Desalination and Water Treatment – CMTDE 2015, December 21–24, 2015, Hammamet, Tunisia

| | |
|---|-----|
| Simulation of the solar still under real operating conditions A. Trad, D. Mahdi (Algeria) | 176 |
| Theoretical study of various configurations of solar desalination by vacuum membrane distillation N. Frikha, S. Benabdallah, S. Gabsi (Tunisia) | 184 |
| Techno-economic analysis of an integrated solar vacuum membrane distillation system for the treatment of reverse osmosis desalination brine Z. Triki, M.N. Bouaziz (Algeria), M. Boumaza (Saudi Arabia) | 193 |
| Effect of temperature on the adsorption of fluorides, nitrates and sulfates onto modified AFN membrane F. Guesmi, C. Hannachi, I. Louati, B. Hamrouni (Tunisia) | 204 |
| Combining adsorption on activated carbon with electrocoagulation process for copper removal from used water A. Barhoumi, S. Ncib, W. Bouguerra, B. Hamrouni, E. Elaloui (Tunisia) | 212 |
| Study of cadmium adsorption onto calcite using full factorial experiment design S. Hajji, T. Turki, A. Boubakri, M. Ben Amor, N. Mzoughi (Tunisia) | 222 |
| Adsorption of cadmium onto activated alumina: kinetics and thermodynamics studies S. Mtaallah, I. Marzouk, B. Hamrouni (Tunisia) | 234 |
| Application of Doehlert matrix to determine the optimal conditions of bromothymol blue discoloration with Fenton process M. Maamar, R. Fezei, N. Souissi, N. Bellakhal (Tunisia) | 244 |
| Removal of LPS endotoxin from reclaimed wastewater through adsorption using soil G. Mokhtar, K. Hideyaki, F. Naoyuki (Japan) | 253 |

Selected papers presented at the First International Symposium on Materials, Electrochemistry and Environment (CIMEE16), September 22–24, 2016, Tripoli, Lebanon

| | |
|---|-----|
| Foreword to First International Symposium on Materials, Electrochemistry and Environment (CIMEE16), September 22-24, 2016, Tripoli, Lebanon A. El Moll (Lebanon) | 261 |
| Use of combination of coagulation and adsorption process for the landfill leachate treatment from Casablanca city Z. Chaouki, K. Fouad, M. Ijjaali (Morocco), H. Valdés (Chile), S. Rafqah (Morocco), M. Sarakha (France), H. Zaitan (Morocco) | 262 |
| Assessment of soil pollution by toxic metals and petrochemical compounds in western Libya A.A. Banana (Libya), A.A. Al-Gheethi, E.A. Noman, M. RMSR (Malaysia) | 272 |
| Porous ceramic from Moroccan natural phosphate and raw clay for microfiltration applications M. Mouiya, A. Abourriche, A. Benhammou, Y. El Hafiane, Y. Abouliatim, L. Nibou, M. Oumam, H. Hannache (Morocco), A. Smith (France) | 277 |
| Effects of a 25-year application of treated wastewater on soil properties of Cebala-Borj Touil irrigated perimeter (North Tunisia) I. Dridi, A. Louati, A. Arfaoui, H. Hamrouni, M. Gueddari (Tunisia) | 281 |
| Brackish water desalination using nanofiltration membranes in Morocco A. Lhassani (Morocco), H. Dach (Morocco, France), Y.A. Boussouga (Morocco) | 288 |
| Calcium alginate-organobentonite-activated carbon composite beads as highly effective adsorbent for bisphenol A and 2,4,5-trichlorophenol: kinetics and equilibrium studies N. Djebri, N. Boukhalifa, M. Boutahala, D. Hauchard, N.-E. Chelali, A. Kahoul (Algeria) | 294 |

| | |
|---|-----|
| Transition metal bis iminium complexes: Synthesis, characterization, and electrochemistry. Homogeneous epoxidation of cyclohexene with H ₂ O ₂ using the oxovanadium complex as catalyst M. Merzougui, K. Ouari (Algeria) | 306 |
| Chemical synthesis and characterization of polyaniline: Water depollution efficiency and effectiveness H. Chafai, M. Laabd, M. Elamine, A. Albourine (Morocco) | 314 |
| Direct ultra-trace detection of alkylphenols in water using a cavity carbon-paste microelectrode sensor A. Chmayssem, D. Hauchard (France) | 321 |
| Author Index | 327 |
