The unit of the salinity in Eq. (17) on pg. 364 should be kg/kg. The correct validity range of salinity for Eq. (17) is

Validity: $0.015 < S_p < 0.13 \text{ kg/kg}$

There is a unit conversion typo in Eq. (21) on pg. 364. The correct equation is

$$\ln\left(\mu_w\right) = -10.7019 + \frac{604.129}{139.18 + t_{68}} \tag{21}$$

All other results in the paper are unaffected by this typographical error.
