Volume 108

Sewer chamber design under critical conditions using computational fluid dynamics (CFD) T. Tsuchida, J.L. Irvine, Siufung Tang, J. Nishikawa, L. Lum, A.S. Kim (USA)	1
Effectiveness of granular activated carbon prepared from dates pits as adsorbent in forward osmosis desalination process S. Al-Aibi, A.O. Sharif, G. Derwish (UK)	15
Impact of forming on the structure and separation properties of polyacrylonitrile membranes with polyaniline addition B. Fryczkowska, D. Biniś, C. Ślusarczyk, J. Fabia, J. Janicki (Poland)	27
Porous P84 co-polyimide anion exchange membranes for diffusion dialysis application to recover acids Pin Wang, Cuiming Wu, Mengjie Sun, Xu Zhang, Yonghui Wu (China)	40
Comparison of different quaternary ammonium groups on desalination performance of BPPO-based anion exchange membranes M.I. Khan (China)	49
Effects of operating parameters and ion characters on the adsorption capacity and energy consumption in membrane capacitive deionization Xuhua Yin, Lin Chen, Liang Zhu, Yunpeng Qiu (China)	58
Simulation of small-scale thermal water desalination using biomass energy A. Amiri (USA), A. Al-Rawajfeh (Jordan), C.E. Brewer (USA)	65
Surface reactors for photocatalytic water purification – a mass transfer evaluation R. Grzywacz, J. Szyman (Poland)	76
A theoretical study of a compact distillation module used in solar desalination unit K. Zhani (Tunisia)	81
Preparation of new 2D MXene/cellulose acetate mixed matrix membrane with excellent performance Qibin Luan, Yongli Xie, Da Teng, Runlin Han, Shouhai Zhang (China)	90
Mechanism and performance of preparation of compositional sewage sludge and corn straw-derived activated carbon with KOH Fan Zeng, Xiaofeng Liao, Li Liao, Hui Hu (China)	97
Calcium carbonate scale in steam generator in enhanced oil recovery F.B. Mainier, M.D. Vieira, L.V. Pontual, G.J. da Costa Comes, B.F. Nani (Brazil)	106
Effect of the organic load on salt removal efficiency of microbial desalination cell S. Sevda (Qatar, India), I.M. Abu-Reesh (Qatar)	112
Study of selected metals biosorption by <i>Arthrospira platensis</i> using neutron activation analysis I. Zinicovscaia (Russia, Romania, Moldova), L. Cepoi, T. Chiriac (Moldova), N. Yushin, K. Vergel (Russia)	119
Effect of coagulation and adsorption on DON removal and DBPs formation potential in municipal wastewater effluent Bing Liu, Li Gu, Xingguo Zhang, Qingfei Li, Guozhong Yu, Chengmei Zhao, Huimin Zhai (China)	125
Stable performance and microbial community dynamics under low HRT conditions in a propionate-fed UASB reactor Qiaoying Ban, Yi Xing, Jianzheng Li, Liguozhang (China)	136
Application of response surface methodology on COD removal from textile wastewater by anodic chlorination and cathodic electro-Fenton process Mei-Hui Chung, Chih-Ta Wang, Jian-Wen Wang, Wei-Lung Chou, Yi-Ming Kuo (Taiwan)	144
Adsorptive removal of boron from aqueous solutions with selective resins in high-depth fixed-bed columns Yu Chang Kim, Sungyun Lee (Korea)	152
Low frequency ultrasound treatment of palm oil mill effluent for solubilization of organic matter Lai-Peng Wong, M.H. Isa, M.J.K. Bashir (Malaysia), A. Yaqub (Pakistan)	164

Removal of carbamate insecticides from drinking water through a fixed bed column of granular activated carbon: a thermodynamic, kinetic and equilibrium study of multicomponent adsorption A.A. de Almeida Alves, A. Dervanoski da Luz, A.R. Müller Tones, T. Campos Martins Nonato, G.L. de Oliveira Ruiz, M.L. Sens (Brazil)	171
Anaerobic digestion reduces veterinary ionophore lasalocid in dairy manure O.A. Arikian (USA, Turkey), W. Mulbry, C. Rice, S. Lansing (USA)	183
Characterization of biochars from a plant biomass and its effect on lead sorption capacity N.B. Fernandez, M.D. Mullassery, D. Thomas, S. R. J. Das Y. (India)	189
Simulation of a real plant for the combined treatment of wastewaters and liquid wastes V. Innocenzi, A. Zammartino, G. Mazziotti di Celso, S. Chianese, D. Musmarra, M. Prisciandaro (Italy)	198
Defluoridation of water by wasted red brick paving blocks T. Rafique, M. Anas, K.M. Chadhar, F. Soomro, S.K. Alvi (Pakistan)	207
Bicarbonate-enhanced removal of a typical amino acid using a cobalt(II)-catalyzed Fenton-like reaction in aqueous solution Cheng Liu, Meiqi Zhao, Siyuan He, Zhen Cao, Wei Chen (China)	216
Influence of the activation method of agro-industrial wastes in the removal of lead M. Gimenez, F. Sardella, C. Deiana, K. Sapag (Argentina)	223
Estimation of nanofiltration membrane transport parameters for cobalt ions removal from aqueous solutions Q.F. Alsahy, A.A. Mohammed, S.H. Ahmed, K.T. Rashid (Iraq), M.A. AlSaadi (Malaysia, Oman)	235
Enhanced photocatalytic degradation of hydrolyzed polyacrylamide by three-dimensional Cu ₂ O/graphene@nickel foam composite Zuchao Meng, Chengxi Li, Mao Li, Qianding Li, Xiang Liu (China)	246
Removal of Cd ²⁺ and Hg ²⁺ from aqueous solutions by adsorption onto nitrogen-functionalized carbon nanotubes O.A. Oyetade, V.O. Nyamori, S.B. Jonnalagadda, B.S. Martincigh (South Africa)	253
Enhancement of Cr(VI) removal from aqueous solution by carboxymethyl chitosan coated nano-zero-valent iron beads Yanhua Xie, Lulu Zhang, Lulu Ren, Jinglong Yang, Xueqian Zhu, Yan Yi, Tingheng Zhou (China)	268
Interfacial adsorption of Ca ²⁺ and Mg ²⁺ from high salinity wastewater by layered double oxides Xiaoxia Zhang, Yiqian Cheng, Jixin Su, Guoqing Wang, Luyao Wang, Yuxin Xiao, Xue Gao (China)	279
Separation of direct orange S from wastewater by the ceramic membranes with Ce/Sb-SnO ₂ Yu-Jiang Guan, Yi-Lin Shang, Zi-Bo Wang, Sheng-Tao Jiang (China)	291
One-step hydrothermally synthesized ferrite@ polymeric nanoparticles for decolorization of crystal violet H. Alijani, M.H. Beyki, R. Kaveh, Y. Fazli (Iran)	299
Enhancement of photocatalytic degradation of organic dyes using ZnO decorated on reduced graphene oxide (rGO) Yean Ling Pang, Su Fang Tee, Steven Lim, A.Z. Abdullah, Hwai Chyuan Ong (Malaysia), Chien-Hou Wu (Taiwan), Woon Chan Chong, A.W. Mohammad, E. Mahmoudi (Malaysia)	311
Efficient photocatalytic degradation of toxic dyes using nanostructured TiO ₂ /polyaniline nanocomposite L. Gnanasekaran, R. Hemamalini (India), Mu. Naushad (Saudi Arabia)	322
A fast adsorption of methylene blue by tobacco rob residues from aqueous solutions Hefang Wang, Zetao Shi, Mengmeng Duan, Yansu Wang, Luming Wu, Cunyue Wang, Yongfang Yang (China)	329
Adsorption of methylene blue from aqueous solution by sol-gel silica doped with sec-octylphenoxyl acetic acid Zhenjiang Zhang, Lili Zhu, Yulu Meng, Shanshan Jia (China)	338
Application of nanosilica-based adsorbent for the removal of rhodamine B and methylene blue from aqueous solutions A. Eslami, M. Mehralian, Z. Godarzvand Chegini, M. Khashij (Iran)	345
Synthesis of surface-functionalized ZnS nanoparticles and its potential application as methylene blue adsorbent S.D. Devasangeeth, G.L. Balaji, R. Lakshminpathy (India)	353

Synthesis, characterization and photodegradation application of Fe-Mn and F-MWCNTs supported Fe-Mn oxides nanoparticles K. Saeed, N. Zada, I. Khan, M. Sadiq (Pakistan)	362
Role of calcination in sol-gel synthesis of 5%In-0.05%Sm-TiO ₂ for photocatalytic degradation of methyl orange Wenjie Zhang, Yingjie Tao, Xiaobei Pei (China)	369
Author Index	376
