

**Contents**

**Volume 121**

*Selected papers presented at the 3rd International Conference on Recent Advancements in Chemical, Environmental & Energy Engineering (RACEEE-2018) February 15–16, 2018, Chennai, India*

Preface

P. Senthil Kumar .....	viii
Forward study of complex resistivity on chromium slag contaminated site model Liancheng Zhang, Guibin Zhang, Haorui Liu (China) .....	1
Effect of ecological concrete applied to water pollution control of urban river Guoye Lv, Yunlong Shi (China) .....	6
Entropy generation analysis of Cu-water nano uid flow over a moving wedge M. Shanmugapriya, P. Sangeetha (India) .....	14
Effective removal of Reactive Magenta dye in textile effluent by coagulation using algal alginate G. Vijayaraghavan, S. Shanthakumar (India) .....	22
Effective utilization of crustacean shells for preparing chitosan composite beads: applications in ameliorating the biosorption of an endocrine disrupting heavy metal M. Seenuvasan, J.R.G. Suganthi, G. Sarojini, G.C.G. Malar, M.E. Priya, M.A. Kumar (India) .....	28
Sewage treatment control based on adaptive fuzzy algorithm Weiping Zhang (China), M. Kumar (China, Germany), Junfeng Yu, Jiangxia Wang, Yihua Mao (China) .....	36
3D computational modeling of complex groundwater deposit based on subsurface exploratory tunnels K. Yan (China) .....	46
Adsorption studies of amine-modified green synthesized Fe <sub>3</sub> O <sub>4</sub> nanoparticles for the removal of nickel from aqueous solution G. Gopika, K. Nithya, A. Sathish (India) .....	53
Design of wireless control system for crop precision irrigation Juan Tang, Zhinan Zhou, Lihua Li, Limin Shao (China) .....	65
Sewage information monitoring system based on wireless sensor Shaofei Wu, Mingqing Wang, Yuntao Zou (China) .....	73
Research on the spatial database management system of water resources in a river basin Yongzhi Zhang, Zhaohu Zhang, Hongli Tan, Fei Yan, Qiuwen Zhang (China) .....	84
Removal and recovery of thorium from aqueous solution using new polyurethane bearing azomethine and urethane chelators: kinetics, thermodynamics and isotherm analysis R. Mahalakshmi, S.D. Kirupha, K. Rathina, L. Ravikumar (India) .....	92
Research on co-combustion characteristics and kinetics of sewage sludge and rice husk Anna Liang, Yiqie Dong, Teng Wang, Yixin Li, Yi Han, Haobo Hou, Min Zhou (China) .....	104
A new method for on-line demand calibration of WDS hydraulic model Weiping Zhang, Yihua Mao (China), M. Kumar (China, Germany), Jalin Li, Jingqing Liu (China) .....	111
Numerical simulation of ground and groundwater factors affecting NMR probe Rui Deng, Dong Wu, Shuzheng Zhao (China) .....	118
Hydrogeological changes caused by opencast coal mining in steppe zone: a case study of Shengli 1 open-pit coal mine Zhenguo Xing, Suping Peng, Wenfeng Du, Yunlan He, Shan Chong, Feisheng Feng, Peng Yu, Changchao She, Dongjing Xu (China) .....	126
Large-scale lake simulation techniques applied to water resource management system Junjian Tang (China) .....	134
An EEMD and BP neural network hybrid approach for modeling regional sea level change Lei He, Jilong Chen, Yue Zhang, Tengjiao Guo, Guosheng Li (China) .....	139

System dynamics analysis of industrial waste recycling network – taking Poyang Lake ecological economic zone as example Wei He (China) .....	147
ANN modeling for scale-up of green synthesis of iron oxide nanoparticle and its application for decolorization of dye effluent K. Sathya, R. Saravanathamizhan, G. Baskar (India) .....	158
Heterogeneous ozone catalytic degradation of butyl xanthate with $\gamma$ -Al <sub>2</sub> O <sub>3</sub> loaded Pt, Au and Pd Han Wei, Qiu-rong Long, Wen-bo Dong, Jian-hua Chen, Yu-qiong Li (China) .....	166
Bayesian analysis of soil-water characteristic curve using Markov chain Monte Carlo simulation and its application on soil water infiltration Weiping Liu, Xiaoyan Luo, Mingfu Fu, Guoquan Ouyang (China) .....	172
Evaluation of China industrial water efficiency based on DAGF method Xun Liu, Ye Yuan, Xiaoliang Yu, Xia Peng, Minggui Yu, Hong Gong (China) .....	180
Influence of the island with grass and the island with trees to water quality in Yihe River, China Xiang Li, Yuan Gao (China) .....	186
Operating characteristics of baffled reactor under microaerobic conditions Jiankun Zhang, Qiyang Feng, Ling Sun, Guangyin Sun (China) .....	191
Characteristics of nitrophenol wastewater treatment via a NZVI/microorganism coupling system Jiankun Zhang, Qiyang Feng, Xueyang Zhang, Guangyin Sun (China) .....	198
Analysis of water rights trading mechanism based on evolutionary game Xun Liu, Mengqi Hu, Xiaoliang Yu, Xia Peng, Minggui Yu, Hong Gong (China) .....	202
The research on under water resources supporting capacity restraint in Xi'an City of the water sports Hong-Jiang Wu (China) .....	208
Research on government supervision and enterprise water pollution control based on the principal-agent model Siguang Dai, Guihua Nie, Zhong Wu (China) .....	213
Biosorption and kinetic studies of Malachite Green (MG) dye removal from aqueous solution using a low-cost adsorbent prepared from male palm tree flower ( <i>Borassus flabellifer</i> ) A. Babu Ponnusami, S. Kumar, P. Bansal (India) .....	219
Assessed health risk and uncertainty of rural drinking water sources in typical mountainous and hilly area of Sichuan Basin Yu Deng, Fuquan Ni (China) .....	233
Application of set pair analysis model based on maximum similarity rules in groundwater level prediction Xiu-Yu Zhang, Qi-Xiang Yang, Xuefang Du, Jing Tian (China) .....	244
Phenanthrene degradation using <i>Streptomyces variabilis</i> strain RD5 isolated from marine ecosystem R.N. Dholakiya, N. Joshi, M.A. Kumar, K. Mody (India) .....	250
Water resources management in China based on coordinated development index Qing Yang, Ling He, Xingxing Liu, Ane Pan (China) .....	256
A novel seed spread algorithm-based approach for the simulation of rainstorm water logging in urban area Qiuwen Zhang, Fei Yan, Ji Shen, Song Ye, Bo Ren, Xike Zhang (China) .....	265
Production of anti-biofouling metabolites by <i>Streptomyces</i> sp. strain RD4 for its application in mitigating the bacterial biofilms R.N. Dholakiya, M.A. Kumar, K. Mody (India) .....	275
Studies on fluidization of sand particles in a three-phase stirred fluidized bed using response surface methodology N. Deepa Priya, K. Saravanan, R. Akshaya (India) .....	284
Chemically enhanced coffee husks as bio-sorbents for the removal of copper and nickel ions from aqueous solutions: study on kinetic parameters J. Arun, R. Sushma, B.S. Darshan, M. Pandimadevi (India) .....	291
Rhf on water chemistry characteristics and influencing factors of water body in the Inner Mongolia section of Yellow River Li-e Liang, Shengbin Li, Changyou Li, Hongxia Yang (China) .....	305
Study on the application of water quality monitoring technology based on unmanned ship Yu-jie Chen, Pei-Xue Liu, Bao-Hua Jiang, Su-Xia Zhang, Fei Feng (China) .....	311
Basin water environmental safety assessment based on fuzzy comprehensive evaluation method: a case study Da You, Yanyan Fan, Bofu Zheng (China) .....	316

Analysis and research on comprehensive utilization of seawater of Huangdao Power Plant of Qingdao Ai-xia Cao, Hao Liu, Feng-Yun Yuan, Xin-Yuan Zhou (China) .....	323
UWB wireless connection for building water supply leakage monitoring system Runfeng Yang, Jian Zhao, Xiaoning Chen (China) .....	327
Numerical simulation of hydrodynamic and pollutant diffusion in coastal waters of Qinhuangdao Xiangyu Yin, Qiaoyun Wang, Xiaoyong Lv, Lingyu Xing, Zhigang Li, Peng Shan, Sheng Hu, Zhenhe Ma (China) .....	332
Ozone promoting organic nitrogen change to inorganic in anaerobic livestock wastewater Ruite Lai, Junfeng Liang, Keqiang Zhang, JiaJia Li, Yue Zhang, Feng Wang (China) .....	338
Combinative treatment of chocolaterie wastewater by a hybrid up-flow anaerobic sludge blanket reactor and solar photo Fenton process J. Rajesh Banu, G. Sokkanathan, V. Godvin Sharmila, K. Tamilarasan, S. Adish Kumar (India), M.T. Jamal (Saudi Arabia) .....	343
Water quality anomaly detection approach based on a neural network prediction model Wei Liu, Lisha Tan, Qicheng Xu, Zhijun Gao (China) .....	351
Characteristics of agricultural climate factors during persistent droughts in North China Liang Liu, Jing Feng, Xuehua Zhang, Yu Gao (China) .....	357
Author Index .....	365
