

Contents

Volume 122

Selected papers presented at the 3rd International Conference on Recent Advancements in Chemical, Environmental & Energy Engineering (RACEEE-2018) February 15–16, 2018, Chennai, India

Research and application of near-infrared spectroscopy in rapid detection of water pollution Peilong Xu (China)	1
Kinetic study on the adsorption of arsenic in the Yellow River sediment with different gradation Haihua Li, Qian Liang, Gui Wei Zhang, Zhengyang E (China)	5
Study on the coupling relationship between water environment and social economy in Ganjiang River basin Bofu Zheng, Junyan Zhao, Da You (China)	14
The determination of allowable exploiting yield for the deep groundwater Jianguo Zhang, Hongying Ji, Xinyi Wang, Xiaoman Liu, Fang Yang, Renzheng Li (China)	20
Research and development of water quality online monitoring system based on Internet of things technology Zeng Shixian, Xue Rui (China)	25
Optimization of wastewater anaerobic digestion treatment based on GA-BP neural network Hua-Yang Zhao, Feng-Lan Huang, Li Li, Chun-You Zhang (China)	30
Key technologies of a distributed unstructured water resources big data system Yuan Dong, D. Xiao, BaoQing Hu, ShiLun Zhang, JiaHai Liang, GuoCai Nong, ZhiXian Liu, RongYang Zhao, MeiXing Liu, ZhenHua Xu, Jin Tao, Kai Deng, Li Zhou, Xin Han (China)	36
Synthesis, characterization of ZVI nanoparticles and its application for the removal of phenol from wastewater R. Sridar, U. Uma Ramanane, M. Rajasimman (India)	42
Rate constants for the removal of pollutants in wetlands: a mini-review R.S. Sutar, B. Lekshmi, K.A. Kamble, S.R. Asolekar (India)	50
Modeling the performance of a tannery common effluent treatment plant using artificial neural networks K. Priya, T. Abbasi, V. Murugaiyan (India)	57
Removal of Zn(II) ions from aqueous solution using chemically modified <i>Annona reticulata</i> seeds: kinetics, isotherm and thermodynamics K.H. Vardhan, R.C. Panda, A. Saravanan (India)	66
Effects of water stress and rewatering on growth and photosynthetic parameters of <i>Typha orientalis</i> presl in coexistence conditions Binbin Huang, Jie Tu (China), K. Acharya (USA), Denghua Yan (China)	78
Impacts of small bypass plants on water chemical characteristics and macroinvertebrate communities in the Lancang River basin of southwest China Weijie Guo, Liangyuan Zhao, Weihua Zhao, Xianqiang Tang, Qingyun Li, Zhuo Huang (China)	85
Multi-factor nonlinear time-series ecological modelling for algae bloom forecasting Li Wang, Tianrui Zhang, Xuebo Jin, Jiping Xua, Xiaoyi Wang, Huiyan Zhang, Jiabin Yu, Qian Sun, Zhiyao Zhao, Lei Zheng (China)	91
The responses of soil function to reclaimed water irrigation changes with soil depth Ping Li, Jianfeng Zhang, Xuebin Qi, Zhenjie Du, Wei Guo, Yan Zhang, Zhijuan Zhao (China)	100
Experimental study on the modified dehydration and solidification/stabilization for desulfurization sludge Fei Xue, Yi Lv, Fucai Huang, Min Zhou, Haobo Hou (China)	106
Application of green coagulants on paint industry effluent – a coagulation-flocculation kinetic study S. Vishali, R. Karthikeyan (India)	112
Water resources data acquisition and monitoring system based on internet of things Junhong Ma (China)	124

Biosorption of methylene blue dye by chemically modified <i>Aspergillus japonicus</i> MG183814: kinetics, thermodynamic and equilibrium studies R. Gnanasekaran, B. Dhandapani, A. Saravanan (India)	132
Lithium perchlorate modified nanoporous polyethersulfone membranes for improved dye rejection K. Rambabu, S. Gokul, A.S. Russel, A. Sivaramakrishna, B. Ponnusami (India), F. Banat (UAE)	146
Effect of spatio-temporal change of land use on soil salinization in the Yellow River Delta Fu-Qiang Qin, Li-Fang Wang (China)	158
Research and exploration on rational utilization of urban water resources and environment Fengju Hu, Jixin Liu, Shufang Zhou, Shuangfeng Han (China)	165
Social water cycle and sustainable consumption in the perspective of water footprint – taken the low water consumption patterns of Zhangye city as a case Fang Su, Hai-yang Shang (China)	170
Enhanced adsorption of Cu ²⁺ , Ni ²⁺ , Cd ²⁺ and Zn ²⁺ ions onto physico-chemically modified agricultural waste: kinetic, isotherm and thermodynamic studies A. Murugesan, M. Divakaran, P. Senthilkumar (India)	176
Functions of chitin fibre in water pollution control Yan Wang (China, Thailand), Yixin Zou (China)	192
Green textile materials and techniques for water resource protection Yan Wang (China, Thailand), Dongsheng Chen, Yixin Zou (China)	195
Light interaction in the application of home water purification system Rui Li, Anran Feng, Linghao Zhang (China), Yingjie Victor Chen (USA)	199
A price calculation model for urban residential water and its application Lijian Wang, Yan Feng, Lei Jin (China)	205
Production and pre-oxidation of the activated carbon fibre needle felt using in the prevention and control of water pollution Dongsheng Chen (China), Yan Wang (China, Thailand), Yixin Zou (China)	211
Development of multi-stage method for opportunity constraint in water supply and drainage system Jixin Liu, Xiaowen Zhuang, Fengju Hu, Hang Su (China)	215
Removal and recovery of heavy metals from aqueous solution using β -cyclodextrin polymer and optimization of complexation conditions E. Kavitha, M.P. Rajesh, S. Prabhakar (India)	219
Monitoring system of sewage index cloud platform Baohua Jiang, Qiang Qi, Peixue Liu, Yujie Chen (China)	231
Phytoremediation of heavy metals in battery industrial effluent using <i>Eichhornia crassipes</i> D. Myilsamy, S. Angamuthu, S. Muthulingam (India)	236
Biogas production kinetics in an anaerobic multiphase hybrid reactor treating antibiotic industry wastewater P. Mullai, S. Vishali, P.L. Sabarathinam (India)	247
Experimental investigation of <i>Sterculia foetida</i> and <i>Moringa oleifera</i> as a coagulant for water and wastewater treatment K. Patidar, R. Roy, S. Kumar, G. Nirmala (India), T. Murugesan (Malaysia)	254
Groundwater potential studies using remote sensing and geographic information system – a research focus A.D. Sheena, M. Ramalingam, B. Anuradha (India)	260
Groundwater potential evaluation using fuzzy inference system A.D. Sheena, M. Ramalingam B. Anuradha (India)	268
Research on the numerical simulations of marine hydrodynamic and pollutant diffusion in Bohai Bay Xiangyu Yin, Qiaoyun Wang, Xiaoyong Lv, Lingyu Xing, Zhigang Li, Peng Shan, Sheng Hu, Zhenhe Ma (China)	277
Eco-toxicological effects of typical pollutants on algae in aquatic environment: a review Weihua Zhao, Liangyuan Zhao, Xianqiang Tang, Weijie Guo, Qingyun Li, Zhuo Huang, Dandan Gong (China)	284
Strain improvement of <i>Pleurotus citrinopileatus</i> MTCC 1796 for enhanced production of laccase enzymes and its environmental application V. Karthikeyan, V.S. Praba, M.A. Kumar, M.P. Premkumar, S. Sivanesan (India)	293
Oil spill at sea based on non-hydrostatic three-dimensional hydrodynamic mathematical model Yanhua Yang, Suhai Kang, Zifei Kang, Xiaoqiang Liu, Xiaoxing Li (China)	298
Relationship between drought and air temperature and actual water vapor pressure in the Heihe River Basin, Northwest China Jing Feng, Liang Liu, Xuehua Zhang, Yu Gao (China)	304

Study on mathematical model of condenser in seawater desalination device Jie Xiao, Fenshi Zeng, Dong Xie, Yan Zhang (China)	312
Simulation of reverse osmosis seawater desalination system based on virtual reality technology Jie Xiao, Fenshi Zeng, Dong Xie, Yan Zhang (China)	316
Treatment of dairy wastewater and performance comparison of three different electrodes in microbial fuel cell system D. Vidhyeswari, S. Bhuvaneshwari (India)	323
Removal of remazol brilliant blue dye from aqueous solutions using water hyacinth root powder M. Rajeswari Kulkarni, C. Bhagyalakshmi, D. Anand, R. Nidhi Herle (India)	331
Kinetic, isothermal and thermodynamic investigation on electrocoagulation of Congo Red dye removal from synthetic wastewater using aluminium electrodes M.S. Ramya Sankar, V. Sivasubramanian, E.V. Vidya Vijay, M. Jerold, J. Kanimozhi, P. Sinu, N. Shankar (India)	339
Modelling and simulation of desalination process using artificial neural network: a review R. Mahadeva, G. Manik, O.P. Verma, S. Sinha (India)	351
Studies on the influence of coagulation bath composition on the preparation of PVDF membranes N. Dayanandan, A. Kapoor, S. Karunanithi, P. Sivaraman (India)	365
Author Index	373
