

**Contents**

**Volume 140**

Heat transfer studies on solar still assisted with and without latent heat storage material V.S. Vigneswaran, G. Kumaresan, S. Elansezhiyan, R. Velraj (India) .....	1
Fuel utilization of steam power cycles integrated with multi-stage flash (MSF) desalination plants O.A. Hamed (Saudi Arabia) .....	7
Development of the corrosion depth prediction model of water pipe using fuzzy theory Kibum Kim, Jeewon Seo, Taehyeon Kim, Jinseok Hyung, Jayong Koo (Korea) .....	14
Nuclear desalination in Chile: a competitive solution F. Genco (Chile), G. Genco (Saudi Arabia) .....	24
Application of membrane distillation in the management of thermal effluents from power plants Youngkyu Park, Yongjun Choi, Sangho Lee (Korea) .....	35
Evaluation of eluted organic matter characteristics and biofilm formation potential from polymeric material in contact with treated water Soohoon Choi, Song Hee You, Ji Won Park, Sung Kyu Maeng (Korea) .....	42
Hybrid dual treatment of real textile wastewater using electrochemical treatment (ECT) and membrane bioreactor (MBR) H.N. Hemalatha, S. Mahesh, S. Nanjundaswamy, M. Sahana (India) .....	50
Sludge characteristics and membrane fouling in membrane bioreactors with various sludge retention times Juan Xiong, Bo Hu, Cong Ma, Xingtao Zuo (China) .....	58
Removal of diluted wastewater from a potato processing plant with laboratory-scale hybrid-constructed wetlands A. Şencan, A. Yalçuk (Turkey) .....	69
Phytoremediation of municipal wastewater for reuse using three pilot-scale HFCW under different HLR, HRT and vegetation: a case study from Egypt S.I. Abou-Elela, M.S. Hellal, M.A. Elekhawy (Egypt) .....	80
Optimization model for location and operation schedule of chlorine booster stations in water distribution networks Jeewon Seo, Kibum Kim, Jinseok Hyung, Taehyun Kim, Jayong Koo (Korea) .....	91
Coupled transport phenomena of a bioswale process during storm runoff events: a CFD study using OpenFOAM J.L. Irvine, Albert S. Kim (USA) .....	103
Applying GMDH-type neural network for modeling and prediction of turbidity and free residual aluminium in drinking water A. Daghbandan, S. Khalatbari, M.M. Abbasi (Iran) .....	118
Soft sensing of effluent ammonia nitrogen using rule automatic formation-based adaptive fuzzy neural network Hongbiao Zhou, Junfei Qiao (China) .....	132
Application of the model of sludge volume index forecasting to assess reliability and improvement of wastewater treatment plant operating conditions B. Szeląg, K. Barbusiński, J. Studziński (Poland) .....	143
Achieving nitrification for low-strength wastewater at different temperatures in an aerobic cubic sponge reactor under high dissolved oxygen Dongbo Liang, Wei Bian, Wenxiao Wang, Qing Zhao, Yiqi Sun, Yaodong Wu, Jun Li (China) .....	155
Removal of boron from aqueous solutions using electrospun PVDF nanofibrous adsorbent modified by poly(glycidylmethacrylate)/glucamine ligands M.L. Nallappana, M.M. Nasef, T.M. Ting, A. Ahmad (Malaysia) .....	163
Functionalization of polypropylene hollow fiber membrane with amino groups and its application for the removal of gold ions from wastewater solution Changkun Liu, Lin Wang, Xiaobin Lei, Jizhen Jia, Zhe Xu, Zhitao Ai, Xiaoyan Chai (China) .....	172

Combined effect of ozone and PTFE membrane on treating shale gas produced wastewater in Fuling Shale Gas Field Liu Qi, Xie Qihang, Zhou Zejun, He Yong, Zhang Yi, Xia Shibin (China) .....	183
Synthesis and behavior of a magnetic composite based on crushed autoclaved aerated concrete for low-concentration phosphate removal Weijie Li, Lixuan Zeng, Shu Lin, Fantang Zeng, Zhongya Fan, Zhiwei Huang (China) .....	189
Impacts of operating parameters on oxidation-reduction potential and COD removal during the electrochemical removal of 2-chlorophenol Yu Mei, Yin Lu, Zhiping Ye, Dongmei Xu, Hua Pan, Jiade Wang (China) .....	199
The effect of anion on cationic surfactants and a structure-efficiency relationship study Jie Zhang, Yun Bai, Weichao Du, Ya Wu, Xuefan Gu, Hong Li, Yun Ma, Chengtun Qu, Gang Chen (China) .....	207
Enhanced photocatalytic and Fenton-like performance of Fe-doped MoS <sub>2</sub> nanosheets under visible light irradiation Cheng Liu, Zhiyong Zhang, Rui Qu, Wu Zhao, Junfeng Yan (China) .....	212
Recovery of magnesium sulfate through crystallization in waste liquid after simultaneous desulfurization and denitrification Caiduan Zhang, Feng Liu, Haotian Li, Xin Qian, Fang Zeng, Yongliang Ma, Lidong Wang (China) .....	222
Organic pollutants removal by flocculation process using ferric chloride/cationic polyelectrolyte for wastewater agricultural reuse M.Y. Eddeeb, G. Heikal, A. El Shahawy (Egypt) .....	231
Study on adsorption of rhodamine B on graphene oxide/Y-type zeolite nanocomposites Zhi-lin Cheng, Yan-xiang Li, Zan Liu (China) .....	245
Mechanical analysis of powdered activated carbon-filled polyurethane foam composites for oil spill cleanup M. Medjahdi, N. Benderdouche, D.E. Kherroub (Algeria), L. Reinert, D. Baillis (France), B. Bestani (Algeria), L. Duclaux (France) .....	253
Adsorption characteristics of amended bioretention fillers on heavy metals Tianshun Ruan, Jiake Li, Yajiao Li, Huaian Li, Meng Wen (China) .....	259
Adsorption capability of surface-modified jujube seeds for Cd(II), Cu(II) and Ni(II) ions removal: mechanism, equilibrium, kinetic and thermodynamic analysis R. Gayathri, K.P. Gopinath, P. Senthil Kumar, S. Suganya (India) .....	268
Preparation of silver-doped BiFeO <sub>3</sub> -MWCNT nanocomposites as enhanced photocatalysts for industrial wastewater remediation R.M. Mohamed (Saudi Arabia, Egypt), M.W. Kadi (Saudi Arabia) .....	283
Pb(II) removal from wastewater by modified activated carbon in batch and fixed-bed column studies: synthetic and real wastewater application A.A. Pam (Malaysia, Nigeria), A.H. Abdullah, Y.P. Tan, Z. Zainal (Malaysia) .....	290
Carbon biogenic with iron nanoparticles for removal of As(V) from water G. García-Rosales (Mexico), L.C. Longoria-Gándara (Austria), P. Ávila-Pérez, M.C. López-Reyes (Mexico) .....	302
Adsorption ability of chelating resin Purolite S930 for removal of metal complex azo dye from aqueous solutions D. Kaušpėdienė, A. Gefenienė, R. Ragauskas (Lithuania) .....	312
Treatment of wastewater contaminated with dyes using modified low-cost adsorbents A.H. Ali (Iraq) .....	326
Synthesis, characterization and application of graphene-based silver orthophosphate nanocomposite in organic dye degradation M. Al Kausor, A.M. Ali, S. Sen Gupta, D. Chakraborty (India) .....	337
Adsorption of methylene blue by graphene immobilized cross-linked chitosan beads Baixiang Ren, Xiaoyue Duan, Yinan Wang (China) .....	347
Groundwaters hydro-geochemical characterization of the Tagharist basin (northern region of Khenchela, south-eastern Algeria) S.S. Eddine, H. Belgacem (Algeria) .....	356
Variation in bacterial communities during landfill leachate treatment by a modified sequencing batch reactor (SBR) Wenjun Yin, Kai Wang, Daoji Wu, Jingtao Xu, Xiaorui Gao, Xiaoxiang Cheng, Congwei Luo, Congcong Zhao (China) .....	365
Author Index .....	373
