

Contents

Volume 182

| | |
|--|-----|
| The potential role of transparent exopolymer particles (TEP) and their pseudo-precursors on biofouling of RO water treatment membranes N. Saeidi, M. Rzechowicz, M.F. Siddiqui, S.W.L. Teng, A.G. Fane (Singapore), H. Winters (Singapore, USA) | 1 |
| CFD study on the performance of hollow fiber ultrafiltration membrane modules with different fiber arrangement Liwei Zhuang, Gance Dai, Zhen-liang Xu (China) | 13 |
| Development and experimental evaluation of an innovative self-boosting energy recovery device for small-scale SWRO system Junjie Tian, Yue Wang, Jie Zhou, Zhisong He, Shichang Xu (China) | 28 |
| Optimal local water resource diversification model for drought vulnerability reduction in water supply system Taehyeon Kim, Jeewon Seo, Kibum Kim, Jinseok Hyung, Jayong Koo (Korea) | 38 |
| Optimal water intake and supply pump scheduling considering water quality safety in multiple water intake system Jinseok Hyung, Jeewon Seo, Kibum Kim, Taehyun Kim, Jayong Koo (Korea) | 49 |
| Diagnosis and renewal decision making of water mains using 3D scanning data Geonhee Lee, Jaegyun Park, Dooil Kim (Korea) | 61 |
| Water quality evaluation based on the water quality index in Lake Bosten: a large brackish inland lake in arid northwest China Lei Zhang, Wangkai Fang, Xingchen Li, Jiahu Jiang, Suixi Hu (China) | 68 |
| Capacitive deionization of water involving mosaic membranes based on fibrous polymer matrices Y.M. Volkovich, N.A. Kononenko, A.A. Mikhalin, M.M. Kardash, A.Yu. Rychagov, S.V. Tsipliaev, S.A. Shkirskaya, V.E. Sosenkin (Russia) | 77 |
| Comparative study of various advanced oxidation processes for the treatment of tannery wastewater E.A. Souza, U.M.F.M. Cerqueira, L.A. Silva (Brazil) | 88 |
| Laundry wastewater treatment by peroxi-coagulation T.Y. Nayir, O. Dinc, S. Kara, A. Akyol, A. Dimoglo (Turkey) | 98 |
| Performance of a hybrid system for antibiotic wastewater treatment Hanyu Chen, Shici Zhang, Zexuan Zhang, Dan Qi, Xujie Lu (China) | 109 |
| Tertiary treatment of biologically treated effluents from pulp and paper industry by microwave modified activated carbon adsorption Rongrong Hou, Haiqing Li, Huilun Chen, Rongfang Yuan, Fei Wang (China), Zhongbing Chen (Czech Republic), Beihai Zhou (China) | 118 |
| Characterizing water quality and quantity profiles with poor quality data in a machine learning algorithm Zhonghyun Kim, Heewon Jeong, Sora Shin, Jinho Jung, Joon Ha Kim, Seo Jin Ki (Korea) | 127 |
| Improvement of sewage sludge dewaterability and immobilization of the heavy metals by using pretreated steel slag Sha Wan, Yi Han, Min Zhou, Xian Zhou, Yuchi Chen, Yiqie Dong, Fucui Huang, Teng Luo, Yun Zheng, Haobo Hou (China) | 135 |
| Preparation of areca residue activated carbon composite and its adsorption performance for uranium (VI) in wastewater Ling-ling Wu, Yan-sen Cao, Zhao-peng Li, Lin Hu, Zhi-jun Zhang, Qing Yu (China) | 144 |
| Treatment of lead contaminated water using lupin straw: adsorption mechanism, isotherms and kinetics studies H. Hashtroudi (Australia) | 155 |

| | |
|--|-----|
| Preparation of activated carbon based on hair and its selectively removing ability for Fe(III) in La(III) Hu-Fei Li, Wang Yong, Tuo-Ping Hu, Jian-Feng Gao, Fu-Qiang An (China) | 168 |
| Hydrothermal synthesis of zeolite A and Y membrane layers on clay flat disc support and their potential use in the decontamination of water polluted with toxic heavy metals A. Lahnafi (Morocco), A. Elgamouz (UAE), N. Tijani (Morocco), I. Shehadi (UAE) | 175 |
| Animal or plant waste-derived biochar for Cd() immobilization: effects of freeze-thaw-wet-dry cyclic aging on adsorption behavior in tea garden soils Yan-de Jing, Lei Shen, Yong-qiang Cao (China) | 187 |
| Statistical analysis and optimal design of polymer inclusion membrane for water treatment by Co(II) removal M. Shirzad (Iran), M. Karimi (Portugal) | 194 |
| Removal of copper and cadmium ions from contaminated groundwater by iron oxide/hydroxide-coated sand in the permeable reactive barrier technology M.B. Abdul-Kareem, A.A.H. Faisal (Iraq) | 208 |
| A comparative study of nickel(II) removal from electroplating wastewater by pre-precipitation combined with Fenton-precipitation or Fenton-like-precipitation Yan Liu, Wenwen Ding, Yanzong Zhang, Fei Shen, Gang Yang, Yan He, Lilin Wang, Ling Luo, Xiaohong Zhang, Shihuai Deng (China) | 220 |
| Assembling nanoscale zero-valent iron on magnetic Fe ₃ O ₄ /reduced graphene oxide composite for efficient reduction of hexanitrohexaazaisowurtzitane (CL-20) Dejin Zhang, Yinglu Sun, Xinbai Jiang, Xiaodong Liu, Xiuyun Sun, Jiansheng Li, Weiqing Han, Lianjun Wang, Jinyou Shen (China) | 225 |
| Removal of humic acid from aqueous solution by amino-functionalized degreasing cotton Pei Wang, Yankun Yin, Lingquan Hu, Shaohua Chen, Hua Wang, Jing Wu, Luoxin Wang (China) | 237 |
| Highly efficient treatment of terephthalic acid wastewater by Fenton-like combined biodegradation Weixia Liu, Ling Zhang, Qiulian Yang, Zhengwei Zhang, Yanhua Liu, Ruixin Guo, O.L. Torres, Zhengyu Yan, Jianqiu Chen (China) | 243 |
| Visible light-driven photocatalytic properties of BiOI-based photocatalyst prepared by different solvents Zhao Li, Jiao Huang, Junbo Zhong, Jianzhang Li (China) | 253 |
| Synergistic effects of catalytic and photocatalytic ozonation on four sulfonamides antibiotics degradation in an aquatic solution A. Esrafil, M. Tahergorabi, M. Malakootian, M. Kerman, M. Gholami, M. Farzadkia (Iran) | 260 |
| Treatment of water contaminated with diazinon by electro-Fenton process: effect of operating parameters, and artificial neural network modeling M.G. Alalm, M. Nasr (Egypt) | 277 |
| Photocatalytic degradation of zidovudine by 0.8% ruthenium doped titanium dioxide nanoparticles during water treatment: synthesis, characterisation, kinetics and mechanism V.S. Bhamare, R.M. Kulkarni (India) | 288 |
| Photodegradation of phenazopyridine in an aqueous solution by CdS-WO ₃ nanocomposite F. Yousefi, A. Nezamzadeh-Ejhieh (Iran) | 299 |
| Electrocatalytic dechlorination of 2,4-dichlorophenoxyacetic acid using a Pd-Co ₃ O ₄ /Ni foam electrode: influencing factors and possible environmental applications Qiuxiang Liu, Jinhui Fang, Sulin Ni, Shasha Tang, Zhiqiao He (China) | 309 |
| Carboxyl functionalized hyper-cross-linked dendrimers and their adsorption of aniline from aqueous solution Xiaomei Wang, Xiaomi Yuan, Fa Zhou, Jianhan Huang (China) | 320 |
| Superior Vis light photo-catalytic efficiency for remediation of gaseous toluene using FeWO ₄ /g-C ₃ N ₄ direct Z system R.M. Mohamed (Saudi Arabia, Egypt), D.W. Bahnemann (Germany, Russia), A.S. Basaleh, R.H. Gadah (Saudi Arabia) | 332 |
| Application of response surface optimization on biosorption of Congo Red dye onto <i>Spathodea campanulata</i> leaves M. Ravikumar (Ethiopia), P. King (India) | 342 |

| | |
|---|-----|
| Influence of heavy metal as co-contamination on biodegradation of dyes by free and immobilized <i>Scenedesmus obliquus</i> G. Abou-El-Souod, R.A. Hamouda, M. El-Sheekh (Egypt) | 351 |
| Photocatalytic degradation of organic dyes using nickel oxide incorporated titania nanocatalyst L. Gnanasekaran, R. Hemamalini (India), S. Rajendran (Chile), Mu. Naushad (Saudi Arabia), Jiaqian Qin (Thailand), F. Gracia, L. Cornejo (Chile) | 359 |
| A sustainable and eco-friendly technique for dye adsorption from aqueous media using waste from <i>Jatropha curcas</i> (isotherm and kinetic model) M.Y. Pudza, Z.Z. Abidin (Malaysia) | 365 |
| Adsorption of methylene blue from aqueous solutions using magnetic zero-valent iron-activated grape wastes: optimization and modeling D. Shahbazi, S.A. Mousavi, E. Noori (Iran) | 375 |
| Decoloration of textile Acid Red 18 dye by hybrid UV/COP advanced oxidation process using ZnO as a catalyst immobilized on a stone surface M. Malakootian, A. Smith, Jr., M. Amiri Gharaghani, H. Mahdizadeh, A. Nasiri, G. Yazdanpanah (Iran) | 385 |
| Adsorption of typical endocrine disrupting chemicals by wheat straw biochars and the effects of the steric structure Fang Wang, Qiang Zeng, Zhixuan Jia, Lei Hou, Zhong-Liang Wang (China) | 395 |
| Residents' willingness to invest in sanitation: evidence from rural China Simei Wu (China), Hanliang Fu (China, USA), Huimi Li, Chao Ding (China), Mengmeng Wang (USA) | 405 |
| Assessment of relationship between land use/cover and surface water quality trends within the riparian zone: a case study from Sivas, Turkey C.B. Karaku (Turkey) | 414 |
| Design and experimental study of an indirect heat pump distillation system for treating high-concentration saline wastewater Jingxiang Lin, Guoliang Qin, Cheng Jia (China) | 434 |
| Author Index | 449 |
