| | |
|---|-----|
| Kinetic modeling of an anaerobic fixed-bed reactor treating industrial wastewater containing hydrothermally solubilized sugarcane bagasse and post-treatment evaluation Bing Liu (China, Japan), Anh Van Ngo (Vietnam), Meng Sun (Japan), Jing Wang (China), Nguyen The Anh, M. Terashima, H. Yasui (Japan) | 1 |
| Optimization of tapioca wastewater treatment in sequencing batch reactor (SBR) using alkaline pre-chlorination G.P.I. Budianto, H. Mulyani, Margono, M. Kaavessina (Indonesia) | 14 |
| Driving factors and microbiology for the enrichment of denitrifying anaerobic methane oxidation (DAMO) microorganisms Ying Shi, Xiaojing Yao, Xiaoting Guo, Yefan Liu, Bian Huang, Linqi Huang (China) | 23 |
| Optimization of the treatment of a real textile wastewater by coagulation-flocculation processes using central composite design D. Sakhi, A. Elmchaouri, Y. Rakhila, M. Abouri, S. Souabi, M. Hamdan (Morocco), A. Jada (France) | 33 |
| Application of ferric-carbon inner electrolysis coupling Fenton process pretreatment of coal tar distillation wastewater with a focus on optimization by the response surface method Wenjing Lv, Jinying Li, Chunwei Yang, Qian Tang, Yiqun Zhang (China) | 41 |
| Removal of heat stable salts from N-methyldiethanolamine wastewater using electro dialysis: a pilot-scale study Fuqiang Chen, Yongzhi Chi, Mengyi Zhang, Kun Yang, Cuilian Fu (China) | 48 |
| Prediction of BOD5 content of the inflow to the treatment plant using different methods of black box — the case study A. Gawdzik, J. Gawdzik, B. Gawdzik, A. Gawdzik, M. Rybotycki (Poland) | 58 |
| Removal of typical pollutants from water sources of Chouara tannery by the integration of coagulation-flocculation and activated carbon treatment Haochen Zhu (China), F.-E. Bennani (China, Morocco), D. Bennani (Morocco), I.A. Abdelhafeez, Yunjie Zhu (China) | 67 |
| Electroflotation treatment system with down-flow granular filtration (Electroflot-filter) for cyanobacteria removal in drinking water T.C.M. Nonato, T. Burgardt, A.A.A. Alves, M.L. Sens (Brazil) | 76 |
| Evaluation of ultrafiltration and multimedia filtration as pretreatment process for forward osmosis A.H. Hawari, M.A. Hafiz, A.T. Yasir, R. Alfahel (Qatar), A. Altaee (Australia) | 84 |
| Computational fluid dynamics for the influence of a semi-circular guiding wall on the hydraulic characteristics in an oxidation ditch Wenli Wei, Ch. Lou, Y. He, J. Wei, Y. Cai, Y. Chang (China) | 93 |
| One-step pasting method for preparation of flat-sheet ceramic membrane Yulong Yang, Zhiwen Hu, Qibing Chang, Qikun Wang, Kun Liu, Yongqing Wang (China) | 102 |
| Anti-pollution polyethersulfone/sulfonated polysulfone (PES/SPSf) membrane with different sulfonation degree by reverse thermally induced phase separation (RTIPS) procedure Hang Yang, Chun-Mei Gao, Sheng-Hui Liu, Shi-Feng Ji, Hong-Yu Chen, Jin-Chao Chen (China) | 110 |
| Effect of dispersion degree and colloidal suspension concentration on the coagulation process — a computer simulation R. Wardzyńska, B. Załęska-Chróst (Poland) | 123 |
| Photodecomposition of sodium dodecyl sulfate under high-intensity pulsed UV radiation of continuous spectrum and hydrogen peroxide N. Levicev, Y. Lagunova, A.F. Seliverstov, S.G. Kireev, K. Tumashevich, S.G. Shashkovskiy, B.G. Ershov (Russia) | 131 |

| | |
|---|-----|
| Surfactant modified kaolinite (MK-BZK) as an adsorbent for the removal of diazinon from aqueous solutions D.R. Tilaki, L.R. Kalakesh, S. Bavandi, I. Babanejad, J. Yazdani Charati (Iran), S. Rodriguez-Couto (Spain) | 137 |
| Efficient simultaneous removal of anionic phosphate and cationic ammonium using a novel amphoteric cellulose/laponite nanocomposite hydrogel Yin Wang, Ruotong Wang, Lan Yu, Yun Wang, Xiaodong Zhang (China) | 146 |
| Thorium(IV) removal and recovery from aqueous solutions using modified silica nanoparticles with cysteine or methionine amino acids L.S. Ismail, F.I. Khalili, F.M. Abu Orabi (Jordan) | 161 |
| Synthesis and characterization of heterogeneous catalyst EDTMPA-Cu-LDH and study of the mechanism of visible-light photocatalytic degradation of Rhodamine B Huali Zhang, Jiaxin Zhang, Hanjun Wu, Yi Pan, Yan Xia, Zhiqun Pan, Dongshen Wang (China) | 177 |
| A sustainable approach for the treatment of industrial effluent using a green coagulant <i>Cassia fistula</i> vs. chemical coagulant S. Vishali, S. Sakthivel, R. Karthick, V.S. Gowsigan (India) | 189 |
| Evaluation of the potentiality of <i>Vicia faba</i> and <i>Opuntia ficus indica</i> as eco-friendly coagulants to mitigate <i>Microcystis aeruginosa</i> blooms W. El Bouaidi, S. Essalhi, M. Douma, Z. Tazart, A. Ounas, G. Enaime, A. Yaacoubi, M. Loudiki (Morocco) | 198 |
| Synthesis and characterization of carboxymethyl cellulose based hydrogel and its applications on water treatment A. Hameed, S. Khurshid, A. Adnan (Pakistan) | 214 |
| Study of 2,4-D herbicide removal from aqueous solutions using synthesized TiO ₂ -zeolite nanocomposite by laser irradiation F. Abdollah, S.M. Borghei, E. Moniri, S. Kimiagar, H.A. Panahi (Iran) | 228 |
| A study of the variations of oxidation-reduction potential, pH and dissolved oxygen during photo-Fenton oxidation of methyl tert-butyl ether in the presence of nanosized zero-valent iron particle, hydrogen peroxide, and ultraviolet radiation E. Azizi, A. Darsanj, H. Zakeri, M. Ghayebzadeh, Z. Heidaripour (Iran) | 238 |
| A facile vapor deposition synthesis of g-C ₃ N ₄ /SiO ₂ nanocomposite with large specific surface area and enhanced photocatalytic activity Fang-yan Chen, Min-keng He, Yu-bin Tang, Cheng-yi He, Ke-ke Shu, Ming-yang Li (China) | 247 |
| The adsorption-degradation effect of peanut shells loaded with sulfonamide-degrading bacteria Yuling Zhang, Xi Wang, Jiali Wang, Siqi Yen, Zhiqun Deng, Yang Ding, Ting Liu, Xue Bai, Jiandong Tai (China) | 256 |
| Sequential removal of phenol and As(V) from contaminated water by ferrate (Fe(VI)) under neutral pH conditions Debo Wu, Xingming Gao, Shuiping Yang, Winston Duo Wu (China) | 271 |
| Enhanced adsorption of Cu ²⁺ on purple soil by amphoteric-modified materials Xuelian Li, Wenbin Li, Hongyan Deng, Ting Li, Dan Wang (China) | 278 |
| Removal of Orange G dye from real water using halloysite nanoclay-supported ZnO nanoparticles A.A. Al-Beladi, S.A. Kosa (Saudi Arabia), R. Abdul Wahab (Malaysia), M.A. Salam (Saudi Arabia)..... | 287 |
| Decolorization of Congo red dye in a continuously operated rotating biological contactor reactor P. Vairavel, V. Ramachandra Murty (India) | 299 |
| Fast adsorption-desorption of Eriochrome Black T using superparamagnetic NiZn ferrite nanoparticles L. Ben Tahar, M.H. Oueslati (Saudi Arabia, Tunisia) | 315 |
| Honeycomb-like porous-activated carbon derived from gasification waste for malachite green adsorption: equilibrium, kinetic, thermodynamic and fixed-bed column analysis A.A. Ahmad, M.A. Ahmad, N.K.E.M. Yahaya, A.T. Mohd Din, A.R.W. Yaakub (Malaysia) | 329 |
| Threshold effect of financial development on water resources utilization Ruibo Jiang (China), T. Cochrane (New Zealand), Wenjing Fan (China) | 348 |

***Selected papers presented at the First International Conference on
Recent Trends in Clean Technologies for Sustainable Environment (CTSE-2019)
26–27 September 2019, Chennai, India***

| | |
|--|-----|
| Numerical performance evaluation of tubular solar still with different geometries of water basin S. Subhani, R. Senthil Kumar (India) | 360 |
| Vulnerability of sewer network — graph theoretic approach B. Ganesan, S. Raman, S. Ramalingam (India), M.E. Turan, G. Bacak-Turan (Turkey) | 370 |
| Removal efficiency of cadmium(II) from electroplating wastewater by chemically modified cottonseed cake carbon S. Malathi, R. Sudha, P. Anitha, P. Maheswari, M. Gomathi, K. Poornima (India) | 377 |
| Cadmium(II) removal from aqueous solution using a novel magnetic nanoparticle impregnated onto <i>Citrus hystrix</i> leaves S. Sribharathi, P. Anitha, R. Sudha, K. Poornima, G. Kavitha (India) | 388 |
| Removal of Crystal violet dye in textile effluent by coagulation using algal alginate from brown algae <i>Sargassum</i> sp. G. Vijayaraghavan, S. Shanthakumar (India) | 402 |
| Biosorption of Alizarin Red dye onto immobilized biomass of <i>Canna indica</i> : isotherm, kinetics, and thermodynamic studies S. Venkatesh, V. Arutchelvan (India) | 409 |
| Citrus lemon leaf powder as a biosorbent for the removal of liquid phase toxic metals from textile effluent K. Muniraj, G. Raju, B. Asha, G. Manikandan (India) | 422 |
| A bio-kinetic study on liquid-to-biogas transfer in an up-flow anaerobic sludge fixed film reactor in the treatment of sago wastewater R. Sheela, B. Asha (India) | 433 |
| The role of pH in the degradation of organic substances of institutional wastewater in a compartmentalized anaerobic migrating blanket reactor C. Aruna, N. Sivaraman, B. Asha (India) | 439 |
| Author Index | 447 |
