

**Contents**  
**Volume 245**

Assessment of SW30 membrane for simultaneous removal of selected microelements from high-mineralized water M. Tyszer, B. Tomaszewska, M. Bodzek (Poland) .....	1
Phosphorus reactive materials for permeable reactive barrier filling – lifespan estimations A. Bus, A. Karczmarczyka, A. Baryła (Poland) .....	9
Uniquely modified polyethersulphone and f-CNTs mixed matrix membranes for enhanced water transport and reduced biofouling K. Nikita (India), D. Swetha C. (USA), C.N. Murthy (India) .....	16
Effectiveness of carbon polymeric nanofiltration composite membrane in treating industrial textile wastewater N. Tahri (Tunisia), M.O. Daramola (South Africa), R. Ben Amar (Tunisia) .....	35
Comparison of dissolved air flotation and ballasted sedimentation for the treatment of an algal impacted water J.P. González-Galvis (Colombia), R.M. Hérard (Canada), E. Berthier (France), R.M. Narbaitz (Canada) .....	45
Determination method of environmental damage liability insurance underwriting coverage of offshore factory wastewater based on OTUS Siyun Xu (China, Korea), Xiaoxia Liu, Qian Lu, Shixue Chang (China) .....	54
Assessment system of water conservancy project impact on environmental pollution based on HSPF model Dongling Cheng (China) .....	62
Techno-economic assessment of carbon-based nanofluid dispersions in solar stills for rural coastal locations in the Northern and Southern hemispheres S.K. Hota (USA), C. Mata-Torres, J.M. Cardemil (Chile), G. Diaz (USA) .....	72
An environmentally friendly method for removal of salts from produced water brine A.M.M. Al Darmaki, M.M. Hossain (UAE) .....	85
Simultaneous anammox and denitrification process start-up performance and mathematical simulation Zhaozhao Wang, Xinjuan Wu, Huan Zhang, Peng Gao, Jun Ma, Chunyu Yin, Shuhao Zhu, Simin Li (China) .....	92
Calcium and silica removal from water in evaporative cooling systems, using precipitation and electrocoagulation H.A. Moreno Casillas, M.C. García Carrillo, A. Gamboa Hernandez, M.G. Vázquez Rueda (Mexico) .....	106
Removal of some hazardous ions using titanium oxide and <i>Cunninghamella elegans</i> immobilized in alginate–carboxymethyl cellulose beads M.M.E. Breky, A.S. Abdel-Razek, M.S. Sayed (Egypt) .....	116
Synthesis of 6-cellulose-triethylenetetramine-glutaraldehyde for removal of toxic chromium from an aquatic environment A. El Nembr, A. Eleryan, S. Ragab (Egypt) .....	129
Optimization of activated carbon by chemical activation from grape seeds using the response surface methodology S.E.A. El Hassani, A. Driouich, H. Chaair, H. Mellouk, K. Digua (Morocco) .....	144
The impact of <i>k</i> -value-based aluminium speciation and basicity of coagulants on flocs resistance to breakage J. Gumińska, M. Kłos, K. Gaska (Poland) .....	158

First assessment of domestic and industrial effluents impact on intertidal zone of Safi coastline (west of Morocco): physicochemical characteristics and metallic trace contamination F. Rafiq, M. Techetach, H. Achtak, Y. Boundir, H. Kouali, M. Sisouane, B. Mandri, O. Cherifi, A. Dahbi (Morocco) .....	167
A new adsorbent (aluminum modified talc) for phosphate removal from alkaline solutions and optimization of data by central composite design M. Korkmaz, E. Özmetin, Y. Süzen, E. Çalgan, C. Özmetin (Turkey) .....	178
Adsorption efficiency and isotherm of COD and NH <sub>3</sub> -N removal from stabilized leachate using natural low-cost adsorbent green mussel ( <i>Perna viridis</i> ) A. Detho (Pakistan, Malaysia), Z. Daud (Malaysia), A.I. Almohana, S.F. Almojil, A. Alali (Saudi Arabia), A.A. Memon, S.R. Samo (Pakistan), M.A. Rosli, H. Awang, M.B. Ridzuan, M.A. Kamaruddin, A. Abdul Halim (Malaysia) .....	191
Effect of metal cationic on the adsorption of selenium from sewage by biochar loaded with zero-valent iron Chenao Lei, Baojun Yi, Weiqi Deng, Meijing Chen, Yuanyuan Wang (China) .....	202
Evaluation of wastewater treatment using CNT/TiO <sub>2</sub> coating on a glass slide by a dip-coating method M. Wongaree, A. Bootwong, Y. Lubphoo, R. Khunphonoi (Thailand) .....	217
Implementing of eggplant peels as an efficient bio-adsorbent for treatment of oily domestic wastewater H.J. Al-Jaaf, N.S. Ali, S.M. Alardhi, T.M. Albayati (Iraq) .....	226
The microbial diversity of groundwater and iron manganese sand filtered water in rural water supply project Wei Zhao, Guochen Zheng, Xinyue Hou, Guan Di, Cui Zhao (China) .....	238
Plasmon-induced ZnO-Ag/AgCl photocatalyst for degradation of tetracycline hydrochloride Nan Cui (China), A. Zada (Pakistan), Jiahe Song, Yuzhuo Yang, Minghui Liu, Yan Wang, Yuxin Wu, Kezhen Qi (China), R. Selvaraj (Oman), Shu-yuan Liu, Ge Jin (China) .....	247
Assessment of Brilliant Green and Eriochrome Black T dyes adsorption onto fava bean peels: kinetics, isotherms and regeneration study L. Nahali, Y. Miyah, F. Mejbar, M. Benjelloun, O. Assila, Y. Fahoul (Morocco), V. Nenov (Bulgaria), F. Zerrouq (Morocco) .....	255
Plant mediated-biosynthesized silver doped zinc oxide for effective sonocatalytic degradation of malachite green: characterizations and optimization studies Yin Yin Chan, Yean Ling Pang, Steven Lim, Chin Wei Lai, A.Z. Abdullah (Malaysia) .....	270
Removal of methylene blue from aqueous solution using a mixture of dried rice husk, sugarcane bagasse and wheat bran powder as a low-cost biosorbent T. Malarvizhi, K. Muthukumar, P. Thamarai (India) .....	286
Synthesis of Sr@TiO <sub>2</sub> nanomaterials rapidly by microwave induced combustion method and measure its photocatalytic degradation properties of methyl orange wastewater Yanqin Xu, Hong Wu, Zuntao Lv, Yuan Cao (China) .....	297
The cooling crystallization processes of 1,2-diphenylethane in the MSMR crystallizer Yabing Qi (China) .....	306
Author Index .....	318
