

**Contents**

**Volume 295**

Conducting distribution system corrosivity evaluations using an innovative jar test procedure P. Campesino-Karlins, S. Duranceau (USA) .....	1
Preparation of high alkalinity polymer ferric sulfate flocculant by new bipolar membrane electrodialysis reactor Dong Wang, Xiaoyi Li, Yuting Wu, Shaoxiang Li, Yuqi Zheng, Dan Chen, Nan Zhang, Yueyuan Zhu, Congjie Gao (China) .....	18
Emulsion liquid membrane for removal of pesticides from aqueous solution: emulsion stability and effect of operational parameters A.A. Mohammed, F.E. Al-Damluji (Iraq) .....	30
Modification of surface characteristics of functionalized multi-walled carbon nanotubes containing mixed matrix membrane using click chemistry P. Mistry, K. Nikita, V.K. Aswal, S. Kumar, C.N. Murthy (India) .....	42
Study on the relationship between urbanization and sustainable utilization of water resources in Xiamen, Zhangzhou, and Quanzhou Jiping Wang, Yaling Han, Qiongqiong Wang (China) .....	52
Outstanding adsorption characteristics of an aminophosphonic acid chelating fiber for calcium and magnesium ions Da-Xin Liu, Gang Xu, Zhao-Wen Chen, Guo-Qing Huang, Ming-Hong Wu (China) .....	64
Preparation methods of an MoS <sub>2</sub> /GO photocatalyst for the oxidation of ammonia nitrogen in photoelectric microbial cells Jing Ren, Jiyue Zhang, Yao Li, Maohua Du, Na Li, Chunxu Hao, Rui Hu (China) .....	73
Numerical simulation and experimental optimization of ultrasonic cracking in excess sludge Nan Zhang, Ying Qin, Yun Wan, Wei Wei, Shuguang Zhu, Kefeng Lu, Zhiwei Wang (China) .....	83
Heterogeneous catalytic ozonation by amorphous copper silicate for degradation of p-chloronitrobenzene in water Congmin Wang, Yue Liu, Quan Zhao, Rong Guo, Yanyan Dou, Caixia Zhu (China) .....	95
Multivariable event-triggered predictive control based on recursive bilinear subspace identification for wastewater treatment processes Hongbiao Zhou, Shuaixiang Liu, Jian Ren, Jinlong Zhang, Honghai Li (China) .....	105
Ex-situ treatment of black and odorous sediments using chemical oxidation Cong Huang, Qiang Lin, Shaokang Peng, Zheng Xu, Min Zhang, Dingli Chen, Haoming Sun, Jizhao Chen, Lei Miao, Zongping Wang (China) .....	125
Removal of boron from aqueous solution through adsorption process using cationic surfactant (CTAB)-modified kaolin clay A.Y. Al Haj Ahmed, H. Al Najjar, N. Abu Ghalwa (Palestinian Authority) .....	133
Combination of chemical methods for obtaining ZnO films for application and reuse in photocatalysis: polymeric precursor and microwave-assisted hydrothermal methods G. de Souza, J.O.D. Malafatti, J.A. Dias, E.C. Paris, R.F. Klein-Gunnewiek, T.R. Giraldo (Brazil) .....	142
Bioceramic hydroxyapatite derived from waste bone for copper bioadsorption application using process optimization: solution for sustainability M. Mekki, K. Zlaoui Riahi, K. Horchani-Naifer, D. Jellouli Ennigrou (Tunisia) .....	150
Enhanced removal of Cr(VI) of effectiveness and mechanism from wastewater using modified distiller grains-based biochar Hengjun Tang, Biao Qiu, Jian Tang, Yi Liao, Guo Liu, Suyi Zhang, Zonghua Ao, Kai Shang (China) .....	166
Removal of phosphate from solution using lanthanum-modified wheat straw Yuanyuan Wang, Xu Liu, Yuwei Song, Runping Han (China) .....	177
Simulation and optimization of supercritical water oxidation processes Guodong Yu, DeDong Hu (China) .....	191

Enhanced biosorption of hexavalent chromium ions from aqueous solution onto <i>Ziziphus jujube</i> seeds as ecofriendly biosorbent – equilibrium and kinetic studies T. Hariharan, R. Gokulan (India), N. Al-Zaqri (Saudi Arabia), I. Warad (Palestinian Authority, UK) .....	205
Multi-response optimization of ultrasound-assisted competitive adsorption of dyes onto $\gamma$ -Fe <sub>2</sub> O <sub>3</sub> nanoparticles loaded on activated carbon: central composite design M. Kiani, N. Karachi, S. Bagheri, V. Bagheri (Iran) .....	217
High adsorptive removal of cationic dye using carboxylated and mechanically attrited activated carbon H.K. Mahilary, A.K. Dey (India) .....	227
Modified Tunisian diatomite for the removal of dyes: kinetic and thermodynamic studies H. Nefzi, N. Tahari (Tunisia, Spain), O. Bachrouch, M. Abderrabbaa (Tunisia), J. Labidi (Spain) .....	245
Corrigendum to "Photocatalytic removal of the erythromycin antibiotic using Fe-doped TiO <sub>2</sub> @Fe <sub>3</sub> O <sub>4</sub> magnetic nanoparticles: Investigation of effective parameters, process kinetics and degradation end products" published in vol. 262, June 2022, pp.323–337 (doi:10.5004/dwt.2022.28542) H. Pishrafti, H. Kamani, N. Mansouri, A.H. Hassani, H. Ahmadpanahi (Iran) .....	255
Statement of retraction – "Thermal analysis of water distillation system using PV/T collector combined single basin still" published in vol. 282, January 2023, pp. 53–69 (doi: 10.5004/dwt.2023.29181) Viet Van Hoang, Bao The Nguyen, Huy Dang Ho (Vietnam) .....	256
Author Index .....	257
