

## Statement of Retraction

The following article has been retracted from publication in the journal *Desalination and Water Treatment*: “Thermal analysis of water distillation system using PV/T collector combined single basin still” by Viet Van Hoang, Bao The Nguyen, Huy Dang Ho published in vol. 282 (2023) pp. 53–69 [doi:10.5004/dwt.2023.29181].

It was brought to our attention by the authors that the above mentioned article, they had also submitted an article to the *Journal of Engineering and Technology* of Vietnam National University Ho Chi Minh City (ISSN 2615-9872). This article had been accepted and published in Vietnamese. Since these two papers are quite similar in content, even though the purposes of these two were totally different from the beginning, to avoid the conflict of interest between the two journals, the authors requested to withdraw the paper “Thermal analysis of water distillation system using PV/T collector combined single basin still”.

We note that we received, peer-reviewed, accepted, and published the article in good faith based on these warranties. The retracted article will remain online to maintain the scholarly record, but it will be digitally watermarked on each page as RETRACTED.
