

## Contents Volume 303

Integration of direct microfiltration and reverse osmosis process for resource recovery from municipal wastewater O. Ozcan, E. Şahinkaya, N. Uzal (Turkey) .....	1
Box-Behnken multi-response modeling and optimizing of brackish water reverse osmosis brine treatment using electro dialysis reversal with tortuous flow path A. Afarinandeh, H. Rashidi (Iran), L. Karimi (USA), K. Heidari, A. Arashi (Iran) .....	11
Role of temperature gradient in the power generation performance of reverse electro dialysis in conical nanochannels Gensheng Wu, Jiahao Shen, Weiyu Chen, Zhishan Yuan, Yu Bo (China) .....	24
Surface water resources assessment based on water quantity and quality coupling Rui Feng, Lie'en Weng, Juan Liu, Siqi Yu (China) .....	34
Modelling and analysis of the impact of renewable energy on mitigating ecological pollution of marine environment Qing He (China) .....	44
Development of a water quality prediction model using ensemble empirical mode decomposition and long short-term memory Sukmin Yoon, Chi Hoon Park, No-Suk Park, Beomsu Baek, Youngsoon Kim (Korea) .....	48
Simultaneous removal of nitrogen and phosphorus from urban sewage by synthetic zeolites adsorption: performance, characterization, and mechanism Rui Zhao, Guangzhi Wang, Hongfang Chen, Simin Zhou, Xiyu Sun, Dongdong Wang, Likun Huang, Zhe Li (China) .....	59
Research of fluoride ions removal from post-absorption solutions from flue gases desulfurization process by the wet ammonia method using fossil calcium sulfate – studies on model systems A. Zdunek, D. Kołodyńska, K. Borowik, A. Bińczak, P. Rusek (Poland) .....	70
Activation of zinc particles with 3-(N-morpholino)propanesulfonic acid buffer and ultrasound for nitrite reduction D.N. Bute, O. Ayyildiz (Turkey) .....	87
Activation of persulfate and H <sub>2</sub> O <sub>2</sub> by using attapulgite-supported sulfide nanoscale zero-valent iron for degradation of p-nitrophenol: a comparative study Hui Xu, Xuefang Zhao, Minzhang Chen, Yong Chen (China) .....	97
Simultaneous removal of Ni <sup>2+</sup> , Cd <sup>2+</sup> and Cr <sup>6+</sup> from an aqueous solution by using native algal biomass loaded in Ca-alginate beads K. Javed, T. Ghous, S. Shahida, R.M. Haseeb, K. Saleem, S.M. Haider, N. Khizer, A. Kareem (Pakistan), A. Shanableh, M.I. Khan (UAE) .....	113
Facile synthesis and application of manganese-zinc-cobalt hydrous oxides nanoparticles decorated biochar for decontamination of copper (II) from water S. Khalid, R. Nazir, S.R. Ahmad, M.N. Chaudhry (Pakistan) .....	121
Waste materials and composites as a trickling filter filling M. Spychała, I. Kruszelnicka, D. Ginter-Kramarczyk, M. Michałkiewicz (Poland) .....	132
Removal of erythromycin antibiotic from the aqueous media using magnetic graphene oxide nanoparticles P. Fatholahi, H. Salehzadeh, K. Hosseini (Iran), K. Wantala (Thailand), H.P. Shivaraju (India), D. Jenkins (UK), B. Shahmoradi (Iran) .....	142
Optimization of microwave sol-gel synthesis of N-Ce-AC/TiO <sub>2</sub> for adsorption/photodegradation of tetracycline N.A.A. Abdul Rahman, A. Khasri, N.H.M. Salleh, M.R.M. Jamir (Malaysia), S. Ansar (Saudi Arabia), R. Boopathy (USA), A. Syafiuddin (Indonesia) .....	151

Integrated Fenton-like and photocatalytic system for metronidazole degradation in water using FeNi <sub>3</sub> /SiO <sub>2</sub> /CuS magnetic nanocomposite N. Nasseh, A. Karimi Pour, M. Azqandi (Iran), W.M.S Kassim (Iraq), B. Barikbin (Iran), T.J. Al-Musawi (Iraq) .....	160
Evaporation of CuO/H <sub>2</sub> O nanofluid film liquid flow downward in a vertical parallel plate evaporator by mixed convection A. Nasr (Saudi Arabia, Tunisia), S.A. Bawazeer (Saudi Arabia) .....	171
Hyper-branched phosphonated polyethyleneimine composite for the removal of samarium(III) ions from aqueous solutions: effect of process parameters W.A. Miloudi, K. Oukebdane, O. Abderrahim (Algeria) .....	181
Assessment, characterization, and separation of alizarin red dye from aqueous solution using M-Fe layered double hydroxide H.F. Nassar, H.M. Ahmed, M.E. Fawzy (Egypt) .....	193
Synthesis and characterization of polymetallic Fe-Co-Ni-S nanocomposite displaying high adsorption capacity for Rhodamine B dye Bai Sun, Fengshou Zhao, Yunming Cheng, Chenxu Shao, Menghao Sun, Mingjian Yi, Yun Wang, Xiangxiang Wang, Shuguang Zhu, Xinli Cai (China) .....	200
Adsorption of Rhodamine B dye on potassium permanganate modified peanut shell: adsorption kinetics, thermodynamics and isotherm studies Qing-Zhou Zhai (China) .....	212
Polymer microgel-based gold nanocomposites for reductive degradation of azo dyes M. Khan, S. Iqbal, S. Musaddiq, F. Iqbal, J. Kanwal, S. Ahmad (Pakistan) .....	224
Efficient corn straw and poplar leaf biochar-based adsorbents for the eradication of methylene blue from aqueous solutions Yue Zhao, Kezhen Qi, Jing Pan (China) .....	236
Efficient application of Jordanian glass sand for the adsorptive removal of methylene blue from aqueous media R.M.A.Q. Jamhour, A. Al-Msiedeen, M. Al-Bashabsheh, H. Hani, M.R. Jamhour (Jordan) .....	245
Author Index .....	256
