

Contents Volume 310

Technological options for thermal distillate cooling and their limitations subject to field implementation constraints and climatic conditions A.M. Mahmoud, A.S. Al Ghamdi, S. Ahmed (Saudi Arabia)	1
Productivity enhancement of solar stills using natural fibers: experimental investigation on the effect of <i>Strychnos potatorum</i> seeds and gooseberry stems C. Muthiah, S. Subramani, D.K. Murugan (India)	12
Non-target screening and prioritization of organic contaminants in seawater desalination brine using comprehensive two-dimensional gas chromatography-mass spectrometry Hanwen Song, Xiaoqing Zhang, Xiong Xu, Xuemin Feng, Junrui Cao, Da Song, Changsheng Peng (China)	23
Hydrazine hydrate and tartaric acid corrosion inhibitor as a high efficiency corrosion inhibitor for marine engineering and mechanism study Tiantian Shu, Xuefan Gu, Xuewen Cao, Yefei Wang, Ying Tang, Zhongying Xu (China)	32
Ceramic membrane applied to seawater pre-treatment: effect of flocculation and temperature on microfiltration L.A. Xavier, G.V.G. Lesak, T.V. de Oliveira, D. Eiras, F.A.P. Voll, R.B. Vieira (Brazil)	43
Polishing of treated textile effluent using combined electrochemical oxidation and ozonation technique L.T.V. da Silva, F.B. Romero, Á.A. Amazonas, J.P. Ribeiro, E.F.A. Neto, A.G. de Oliveira, R.F. do Nascimento (Brazil)	50
Surfactant assisted ultrasonication for enzyme extraction from lignocellulosic biomass: Box-Behnken design optimization S. Velusamy, K. Kandasamy, S. Ayyasamy, D.B. Nagarajan, H. Sekar, K. Durairaj, A.P. Maniraj (India)	59
Enhancing desalination rate and water recovery through operational optimization of a membrane capacitive deionization system Dong-Hyun Lee, Jae-Hwan Choi (Korea)	68
Organics removal from office wastewater in attached growth biological process of a packaged onsite wastewater treatment system M.E. Ahmed, M. Khajah, H. Abdullah, A. Al-Matouq (Kuwait)	78
Frontier research and prospect of phosphate adsorption in wastewater by red mud: a review Yalan Wang, Longjiang Li, Zhicheng Liu, Zhiwei Ren (China)	86
Hydrogen production from the hydrolysis of ammonia borane catalyzed by metal catalysts: a review Jian Ren, Fengyan Xu, Jiabin Ma, Yan Wang, Ke Zhang, Zhongqiu Cao, Qiuju Sun, Kezhen Qi, Guode Li, Shiwei Wu (China)	109
Adsorption of aluminum from aqueous solutions utilizing waste polyethylene terephthalate derived activated carbon Yu Shuang Ren (China), M. Ilyas (Pakistan, China), M. Yasir, S. Ur Rahman (China)	123
Synthesis of α -FeOOH nanoparticles for separation of aniline and phenol from liquid fuel: single and binary cases S. Rahimi, M. Soleimani, A.R. Azadmehr (Iran)	133
Microwave process of oily sludge produced at NRC Baiji to micro-char solid carbon production M.I. Fathi, M.A. Abdulqader, O.A. Habeeb (Iraq)	142
First assessment of the anti-cyanobacterial potentialities of the invasive weed <i>Verbesina encelioides</i> against <i>Microcystis aeruginosa</i> growth M. Lahlali, N. Manaut, M. Loudiki, M. Douma (Morocco)	150

Comparative study on the performance of two synthetic zeolite 4A on the removal of heavy metals from aqueous solution — effect of coal fly ash as Al and Si source L.T.V. da Silva, A.D.L. de Freitas, T.G. Martins, A.M.M. França, A.R. Loyola, R.F. do Nascimento (Brazil)	157
Equilibrium, kinetics and thermodynamics study of phenol adsorption onto <i>Phoenix dactylifera</i> leaf adsorbents A. Khelifaoui, N. Chaouch (Algeria)	167
TEM and LM assessment of <i>Biomphalaria alexandrina</i> snails' immunotoxicity as a bio-monitor for water pollution by cuprous oxide nanoparticles and copper sulphate K. Zayed (Egypt), F.M. Shaldoum (Saudi Arabia)	181
Study on factors affecting, isotherms, kinetics, thermodynamics, and optimization of chromium ion adsorption process in aqueous solution by modified mussel shells Trinh Hoang Nghia, Nguyen Thuy Chinh, Nguyen Xuan Thai, Ngo Thi Cam Quyen, Thai Hoang (Vietnam)	189
Adsorption properties of carboxymethyl cellulose/carbon hydrogel for copper and methylene blue Keke Chen (China)	200
Investigation of adsorption and mechanism of the cationic methylene blue by the polymeric <i>Rubia tinctorum</i> seeds from environment wastewater: kinetic equilibrium and thermodynamic studies Z. Wardighi, J. Bensalah, A. Zarrouk, E.H. Rifi, A. Lebkiri (Morocco)	212
Removal of Congo Red from aqueous solutions by adsorption onto illite clay O.T.S. Altaie, H. Zeidan, N. Karakaya, M.Ç. Karakaya, M.E. Marti (Turkey)	226
Comparative study of Rhodamine B and Direct Orange 39 degradation in aqueous solution using atmospheric plasma C. Torres Segundo, J. Vergara Sánchez, E. Montiel Palacios, A. Gómez Díaz, P.G. Reyes Romero, H. Martínez Valencia (Mexico)	238
Author Index	248
